

SEM S-570 Gets Ready for the Move to ISC

Brandt is preparing the S-570 SEM for transport to the new Integrated Science Center at William and Mary's main campus where it will be available to undergraduates for use with their projects.

Everyone pitched in to get the SEM ready for the move. Amy is shown here helping Brandt.

FESEM Gets Installed

Hitachi Field Technician Ron Dolt is shown here installing the Hitachi 4700 Field Emission Scanning Electron Microscope in Lab 121.

Successfully installed!!!
