

# August 2009 College of William and Mary Applied Research Center Student Newsletter

## New Volunteer at the Characterization Lab

Mohamed Aboulatta is our newest volunteer at the Characterization Lab. Mohamed is a recent graduate of Nansmond Suffolk Academy and will be attending The College of William and Mary this fall. Mohamed will be a pre-med student at the College.

## Researchers from the National Institute of Aerospace (NIA) Visit

On August 19<sup>th</sup>, Dr. Cheol Park (right), a research fellow, and Jae Woo Kim (left), a Senior Research Scientist, from the NIA visited the Characterization Lab. While at the Lab, they worked on the SEM with Amy Wilkerson and Brandt Robertson.

## HIROX Representatives Demonstrate the Newest HIROX Model

Here, the representatives from HIROX demonstrate their newest model to the personnel at the Characterization Labs. At this presentation, we were able to examine the roughness of copper and view diatoms from an ocean rock.
