College of William and Mary Applied Research Center Student Newsletter

Nick Moore is pictured here performing a HIROX analysis of furniture samples brought to the lab by Colonial Williamsburg conservators Chris Swan and Emily Williams.

Amy Wilkerson led a lab visit for Professor A. Cuneyt of the Department of Biological Engineering at Yeditepe University in Istanbul, Turkey and Professor Stephen Knisley of the Department of Mechanical Engineering at Old Dominion University.

Visitors to the lab in January included Dr. Helmut Baumgart, Professor of Electrical Engineering at Old Dominion University and Dr. Hani E. Elsayed-Ali, Professor of Electrical Engineering and Eminent Scholar at Old Dominion University.
