Jefferson Lab Open House

Jefferson Lab's Celebration of Science Open House was held on May 1, 2010. An estimated 7,000 visitors toured the laboratory. Areas such as the CEBAF accelerator, Experimental Hall C, Machine Control Center, Free-Electron Laser, and Test Lab were open to the public for tours. Surface Characterization Lab personnel hosted a hands-on display in CEBAF Center where children of all ages were particularly attracted to the Plasma Ball and microscopes.

Lab Visitors

Scot Polk, William and Mary Property Control Manager, and his assistant met with lab personnel on May 25th to outline the biennial equipment inventory process.

Eric Nordgren and Will Hoffman, conservators from Mariner's Museum, are pictured here, with help from Olga, analyzing samples from the *USS Monitor*.
