

April 2012

College of William and Mary

Applied Research Center Student Newsletter

## Congratulations

Congratulations to William Roach, a William and Mary graduate student in Applied Science, for winning the American Vacuum Society (AVS) student poster competition. William received his award and a check for \$250 at the AVS Mid-Atlantic Chapter meeting held at Jefferson Lab on April 12<sup>th</sup>.

Brandt is pictured helping with the microscopes.

Matt and Becky Vick, both Tabb Middle School students, volunteered to spend the day at our table.

## Nano Day

On April 7<sup>th</sup>, lab personnel participated in Nano Day at the Children's Museum of Virginia in Portsmouth. This is an annual event hosted by Norfolk State University. This year, Brandt and Song, along with Song's two children, Matt and Becky, provided assistance with activities from the lab which included examination of specimens under the microscope.
