g

Thank you to Bernie and Amy for hosting the holiday luncheon. Attendees included lab personnel, summer interns, and ODU and William and Mary researchers. Cheryl Outland who was home on a semester break from Radford University, and Linda Williams, a Jefferson Lab retiree, also joined us. Will Hoffman from the Mariner's Museum even stayed for lunch. In addition to the delicious chicken, everyone brought a side dish or dessert so we had a variety good food to share.

CNU student Clay Huff was a recent visitor to the lab. He is pictured here analyzing his samples with the Hirox.
