July 2014 Safety Meeting

Cori Harris from the Environment, Health, and Safety Office (EHSO) at William and Mary presented a general laboratory safety training session at the Arc on July 2, 2014. Her presentation included a discussion on general lab safety, hazardous communication, personal protective equipment, lab maintenance, handling cryogenics and gases, emergency procedures and minimizing exposure and risks. A total of 15 lab users and personnel attended the presentation, along with Sandra Prior, Director of EHSO. A copy of the presentation is available on our website at:
