October 2015 - Lab News

Amy, Olga, Brandt and Lopa traveled to campus to visit the Small Hall Makerspace. Dr. Manos was on hand to provide a tour of the new area which provides a collaborative work space, equipment and supplies for projects. Professor Wouter Deconinck is one of the faculty members who can help with obtaining access to the Makerspace.

Xin Zhao, Vertical Carbon Technologies Founder/CEO, brought a group of colleagues visiting from China to the lab and Amy was able to provide a tour. Wenjie Fu (far right), a scientist who is currently working with Xin, is also pictured with the group.

Dr. Gianluigi Ciovati from Jefferson Lab is pictured here with Olga. She was able to provide assistance with the Hirox microscope.
