Nanodays - April 2016

The Center for Materials Research at Norfolk State University hosted their annual Nanodays at the Children's Museum of Virginia in Portsmouth on April 2nd for about 1600 visitors. Amy Wilkerson, Lab Manager, was asked to participate in this public outreach STEM event again this year. Amy, along with Ben Kincaid and Alex Prior, set up a table with our 3-D printer, pamphlets and give-away items for the children.

Alex and Ben ready for visitors.

Alex and Ben were also able to explain the 3-D printing process to parents as well as children at the museum.

The 3-D printer and models attracted both girls and boys to our table.

Here's Ben showing the children our 3-D printed figures.

More Pictures from Nanodays

Alex and Ben had a very busy afternoon with so many young visitors.

Norfolk State University graduate students also provided interactive displays for children.
