October 2018 – Lab News

W&M undergraduate Ben Lazarus is performing research for Hannes Schniepp. He is pictured here using the Phenom microscope with Anna Song, a student from the New Horizons Governor's School for Science and Technology.

Harry Eller has been busy in MS Hall with installing a water purification system. The 4 cartridges used for filtration are pictured here prior to assembly.

Former lab tech and W&M Physics graduate Ben Kincaid '17 stopped by the lab while he was home for fall break. Ben is currently a PhD student at NC State University in Raleigh. He was fortunate enough to talk with both Bill Cooke and Amy during his visit.

Hirox Demonstration

Steve Buck from Hirox brought a new system, which included updated software and high magnification lenses, to the lab for a demonstration. Some of the equipment could be added to our existing set-up and some equipment could stand alone depending on our needs.
