August/September 2019 Lab News

Welcome Student Lab Techs

Brennen Brown has returned as a student lab tech for the new school year. Brennen is a junior majoring in Physics.

Alex Fay joins us this year as our newest student lab tech. Alex is a senior majoring in Physics.

August/September 2019 Lab News continued-

Amy is pictured here with Hui Tian, a scientist at Jefferson Lab's SRF Institute, and Hannah, a Jefferson Lab Science Undergraduate Laboratory Internships (SULI) program participant from Cornell University. It was nice to see Hui Tian back at W&M since she received her PhD in Applied Science here in 2008.

Robert (Bob) Harrington, Field Service Engineer from Hitachi, is pictured here performing maintenance service on the FESEM in ISC-2.

August/September 2019 Lab News continued-

Ueda Tetsuya and Yudai Uemo came to the lab with Pengtao Lin, a graduate student at Old Dominion University (ODU). These graduate students are visiting from China.

Pengtao brought several other students with him to observe his analysis of thin film samples using the FE-SEM. Md. Nizam Sayeed, Sadiya Tahsin, and Papa Amoatt are also graduate students from ODU.

It was nice to see Nick Moore at the lab again. Nick is a former lab tech who is now working for Nanoscience. Alex Fay, our newest lab tech, is looking on as Nick completes his equipment check.

Olga provided assistance to Katherine Longmire from VIMS with using the Phenom microscope to analyze her clam shell samples.
