Mr. Capps moved that the Committee on Audit convene in closed session for the purpose of discussing reported misconduct by an identified employee, performance issues with specific employees, and to receive briefings by staff members regarding specific legal matters, as provided for in Section 2.2-3711.A.1 and 7 of the Code of Virginia. Motion was seconded by Mr. Herget and approved by voice vote. Observers were asked to leave the room and the Committee went into closed session at 8:34 a.m.

Mr. Capps asked Director of Internal Audit Michael Stump for his report of Internal Audit Activity. Mr. Stump referred the Committee to the Report of Internal Audit Activity in Enclosure K and briefly discussed the two projects completed since February 2009 as well as the projects in process. COMMITTEE ON ADMINISTRATION

MINUTES – APRIL 15, 2009

MINUTES
Committee on Administration
April 15, 2009
Board Room – Blow Memorial Hall

Committee Members: John W. Gerdelman, Chair; Henry C. Wolf, Vice Chair; Janet Brashear, Timothy P. Dunn, John Charles Thomas. Others present: Rector, Michael K. Powell; Board member Suzann W. Matthews, and Jeffrey B. Trammell; Faculty Assembly member Katherine M. Kulick; Faculty members Lynda Butler and Dennis Taylor; Courtney Carpenter, Anna B. Martin, Samuel E. Jones, and other administrative staff.

Chair John W. Gerdelman called the meeting to order at 4:30 p.m. Recognizing that a quorum was present, Mr. Gerdelman opened the meeting with a brief introduction and requested a motion to approve the minutes of February 5, 2009. Motion was made by Mr. Wolf, seconded by Ms. Brashear, and approved by voice vote.

Mr. Gerdelman turned the meeting over to Ms. Martin who introduced the Committee on Sustainability (COS) Co-Chairs, Lynda Butler and Dennis Taylor. Ms. Butler provided a powerpoint overview of the committee's origins, history, structure, staffing and funding. Since its founding in October 2008, COS has developed a "Sustainability Roadmap" by leveraging the knowledge and experience of faculty, staff and volunteers. The student-instituted "green fee" generated \$209K in its first academic year, of which \$40K became an endowment, and the rest used on student grants, and small and large impact projects, using multiple working groups to identify and focus on particular issues. The committee asked about the COS's "wide swath" given that many companies and institutions choose to put all effort into a single area. The co-chairs cited student involvement and passion. The College's success has attracted attention from other institutions. The committee offered their appreciation of this effort and requested that the powerpoint presentation be made available on the College's website.

Associate Provost for Information Technology, Mr. Courtney Carpenter, updated the committee on the decision not to include a written report this April. In discussions between the committee chair and Mr Carpenter, they decided the old report was a "relic" of the ERP effort. A new baseline report will be provided at the September 2009 meeting in order to kick-off a year long study of IT activities, as they relate to the new Strategic Plan.

Vice President for Administration, Anna Martin reported briefly on restructuring and revised language allowing a part time building official within the renegotiated management agreement. The agreement will be in place until 2012; if the Governor has no changes, the agreement will last until 2015. Ms. Martin also reported that the Risk Management pilot program will move from the Registrar's office to the department of Athletics. The auditor, Michael Stump, informed the committee that the College's progress in Risk Management was very positive.

Vice President for Finance, Samuel Jones brought to the committee for their consideration, **Resolution 1**, Code of Ethics, based on the Commonwealth's template as well as codes of other institutions. The committee discussed how an institution might gauge whether such a code covered all things. Mr. Jones postulated that implementation could be addressed at the unit level, with each department developing the applicable specificity. The College is only one year into

Page 2

its ARMICS effort, and adoption of the code as presented will bring the institution into compliance with current law. Mr. Gerdelman requested a motion. Mr. Wolf so moved; Mr. Thomas seconded and resolution 1 was approved by a voice vote of the committee. The committee requested that the code be an appendix to the handbooks for faculty, staff, students and professionals.

There being no further business, the Committee adjourned at 5:20 p.m.

Hopkins, student representative. President W. Taylor Reveley III; Provost P. Geoffrey Feiss; Virginia Institute of Marine Science Dean and Director John T. Wells; other College and VIMS staff; and staff from Wachovia Securities, the Board of Visitors' investment consultant.

President Reveley introduced and welcomed Michael Halleran, the new Provost for the College, and Davison Douglas, the new Dean of the Marshall-Wythe School of Law. A word of thanks was expressed to the Search Committees for both positions.

Henry Wolf, Chair, convened the Committee meeting at 9:15 a.m., noting the financial challenges the College currently faces due to reduced State funding. He also highlighted the agenda items to be discussed which included the proposed operating budget and related tuition and fees for FY 2009-2010; a revision to the Investment and Spending Policy for Endowment, which included technical changes consistent with State law and a section on social responsibility; and Wachovia's investment report.

Recognizing that a quorum was present, the Chair asked for a motion to adopt the minutes of the committee meeting of February 5, 2009. Motion was made by Mr. Gerdelman, seconded by Mr. Dunn, and approved by voice vote of the Committee.

Mr. Wolf then invited Vice President Jones to present an overview of the College's FY 2009-10 budget. Mr. Jones began by identifying the following Operating Budget Priorities:

- * Maintain quality of academic programs
- * Balance revenue need with student affordability
- * Recognize one-time nature of Federal stimulus funds and permanent reduction in State support
- * Use all fund sources available to address funding requirements
- * Invest in College's infrastructure
- * Continue to aggressively seek private funds and other revenue sources

Vice President Jones then discussed the impact of the reduction in State support for operations, which has declined \$10.5 million since FY 2008. Budget balancing actions for FY 2010 will include a combination of budget reductions, revenue offsets and federal stimulus funds. However, Mr. Jones noted the federal funds will be available only through FY 2011 and will defer, not eliminate, the impact of the shortfall.

For FY 2010, estimated revenue for the College, excluding private funds, totals \$256.2 million and estimated expenditures by major program, excluding private funds, totals \$254.6 million. Educational and general programs are supported by 29.6% State general funds and 70.4% nongeneral funds, including tuition revenue and federal stimulus funds, providing a total of \$138.5 million for the program. Expenditures across the program reflect the College's priorities, with approximately 72% of available resources allocated for instruction and academic support. A significant growth in Plant Operations reflects the impact of new facilities coming on-line and the rising cost of utilities. Auxiliary enterprise revenue for FY 2010 is projected at \$76.1 million, an increase of 3.5% over current year levels, and is supported primarily by increases in student fees. Expenditures are expected to increase by 3.1% to \$74.5 million, due to increases in debt service and utility costs.

Proposed tuition rates for FY 2009-10 reflect the College's need to raise tuition to support new facilities coming on-line, undergraduate need based financial aid, utility increases, buildings and grounds maintenance, and to partially offset the impact of State funding reductions. Tuition is recommended to increase \$298 (4.9%) for in-state undergraduates and \$1220 for out-of-state undergraduates, with graduate and professional school increases for in-state and out-of-state students ranging from \$0 of \$1311.

A lengthy discussion ensued regarding whether tuition for FY 2009-10 should be increased more than the proposed amount. The Chair reminded the committee members that the strategic planning process is currently underway and includes a rebuilding of the College's financial model, which may impact future tuition rates.

Mr. Wolf then asked for a motion to approve the following resolutions as a block: **Resolution 4**, FY2009-10 Operating Budget for Educational and General Programs; **Resolution 5**, FY2009-10 Tuition and Fee Structure for Full- and Part-time Students; **Resolution 6**, FY2009-10 Auxiliary Enterprise Operating Budgets; **Resolution 7**, FY2009-10 Sponsored Programs Operating Budget; **Resolution 8**, FY2009-10 State Appropriated Student Financial Assistance; **Resolution 9**, FY2009-10 Applied Music Fee; **Resolution 10**, FY2009-10 Board of Visitors Private Funds Budget; and **Resolution 11**, Investment and Spending Policy for Endowment. Motion was made by Mr. Gerdelman, seconded by Ms. Matthews, and approved by voice vote of the Committee.

VIMS Director of Planning and Budget, Carolyn Cook reviewed the Institutional Priorities for the Virginia Institute of Marine Science and discussed budget balancing actions that will be implemented at VIMS to offset reduced State support. She then presented the proposed FY 2009-10 Operating Budget for VIMS. Mr. Wolf asked for a motion to approve **Resolution 12**, FY2009-10 Operating Budget. Motion was made by Mr. Gerdelman, seconded by Mr. Scott, and approved by voice vote of the Committee.

Mr. Wolf then called on Joseph Montgomery and the staff from Wachovia Securities, investment consultants to the Board of Visitors, for a report on investment performance. The total market value of the BOV allocation, as of March 31, 2009, was at \$36,347,468, which reflects the continuation of a struggling economy and declining markets. The Investments Subcommittee

APPOINTMENT OF INVESTMENT MANAGERS

At the November 19, 2008 meeting of the Committee on Financial Affairs, Wachovia Securities, financial advisor to the Board of Visitors for investment of private funds, recommended that the Board consider replacing its U.S. mid-cap value and international equity fund managers. This recommendation resulted from Wachovia's evaluation of the performance of the Board's existing managers in these areas relative to other manager options. As a result, the Committee authorized Wachovia Securities to issue a request for proposals (RFP) in each of these areas.

On April 16, 2009, Wachovia Securities presented the results of the RFP process, recommending that the Board replace its current U.S. mid-cap value and international equity fund managers with Artisan Partners LP and Artio Global Management, respectively. The Committee on Financial Affairs concurred with this recommendation.

THEREFORE, BE IT RESOLVED that the Board of Visitors of the College of William and Mary in Virginia accepts the recommendation of the Committee on Financial Affairs that its current U.S. mid-cap value and international equity fund managers be replaced and that Artisan Partners LP be retained as the College's U.S. mid-cap value manager and Artio Global Management be retained as the College's international equity fund manager.

COLLEGE OF WILLIAM AND MARY

FY 2010-12 OPERATING BUDGET REQUESTS

Using guidance from the Governor's Office, the Secretary of Education, and the State Department of Planning and Budget, the College of William and Mary has developed operating budget requests for consideration by the Governor as part of the Commonwealth's 2010-12 budget development process.

The initial step in the Commonwealth's budget development process was the Spring 2009 submission of a six year capital outlay plan by each agency and institution. This plan continues to be under review by Commonwealth of Virginia agencies as the Governor works to finalize his 2010-12 budget recommendations. Given the state's overall revenue position, funding of new capital outlay projects will likely depend on its ability to issue additional long-term debt while maintaining its AAA bond rating.

Currently, agencies and institutions are working with the Department of Planning and Budget to develop base budgets that accurately reflect budget actions taken by the Governor and General Assembly during the 2008-10 biennium. At this point we expect that some or all of the budget reductions imposed on the College for FY 2010 will become base budget reductions for the 2010-12 biennium. FY 2012 must also address the loss of federal stimulus funds currently providing partial support for a variety of state programs and activities.

Given the Commonwealth's revenue situation, operating budget requests are limited in number and scope, addressing areas where the College is likely to allocate funds over the next two years. While consistent with the current strategic planning effort, these requests do not attempt to address all of the priorities that will emerge from strategic planning.

Specific requests are not included for items typically considered "state-wide" issues by the Commonwealth of Virginia. These items include faculty and staff salaries, undergraduate student financial aid, and continuation of the Higher Education Equipment Trust Fund program.

THEREFORE, BE IT RESOLVED, That the Board of Visitors of the College of William and Mary approves the administration's recommended operating budget requests for the College for submission to the Commonwealth as part of the 2010-12 budget development process.

COLLEGE OF WILLIAM AND MARY**FY 2010-12 OPERATING BUDGET REQUESTS**

- Facilities Support**

<u>FY 2010-11</u>	<u>FY 2011-12</u>
\$1,757,800 GF	\$2,044,900 GF
\$ 89,600 NGF	\$ 110,800 NGF
10.00 FTE	10.00 FTE

This request recognizes the fiscal impact of bringing new facilities on-line over the course of the 2010-12 biennium. Over this period the School of Education (July, 2010), the Sherman and Gloria Cohen Career Center (November, 2010), the Small Hall Addition (February, 2011), and the Power Plant Addition (September, 2010) will come on-line, providing an additional 153,000 square feet of space to support the educational programs of the College.

- Graduate Student Financial Aid**

<u>FY 2010-11</u>	<u>FY 2011-12</u>
\$633,000 GF	\$1,266,000 GF

The 2007 study of the graduate financial aid gap across the College's various graduate programs documented a significant funding shortfall based on 1) non-competitive stipends across the doctoral and masters programs in Arts and Sciences and Education, 2) the need to provide support for additional graduate students in programs that have reduced the number of students receiving awards in order to keep stipend levels at anywhere near a competitive level, and 3) the need to support a "critical mass" of graduate students in certain programs. The College's competitive position is being further eroded as other institutions cover all or part of the cost of health insurance required by graduate students. This proposal would increase both the level of support per student and the number of students in doctoral programs across campus.

- Utilities and Other Contract Related
Cost Increases**

<u>FY 2010-11</u>	<u>FY 2011-12</u>
\$527,000 GF	\$1,100,000 GF

This proposal requests state support for anticipated cost increases in utilities, maintenance contracts, leases, and other items across the university. While the College continues to make progress in energy management, rate increases result in additional expense for the College.

COLLEGE OF WILLIAM AND MARY

2009 DEBT MANAGEMENT REPORT

The College of William and Mary Debt Management Policy was established to address all forms of long-term debt including fixed and variable rate options for capital construction projects and capital leases. Key objectives of the policy include the following:

- To provide guidance to the College in undertaking long-term debt obligations benefiting the College;
- To provide a structured framework for the issuance of long-term debt;
- To provide an on-going process for the College to evaluate the level of its annual debt service and consolidated debt burden; and
- To document the exercise of due diligence in the execution and/or management of the College debt portfolio and use of its financial resources.

The Debt Management Policy is applicable to the College of William and Mary, the Virginia Institute of Marine Science, and Richard Bland College.

Background

To date, the College of William and Mary has issued little of its own debt but rather had debt issued on its behalf by the Commonwealth of Virginia. While the College remains responsible for principal and interest associated with this debt, this approach allows the College to minimize issuance costs and take advantage of the Commonwealth's strong credit position.

Long-term debt is used primarily to support the construction or renovation of major auxiliary facilities including residence halls, university centers and dining facilities, parking improvements, and recreational and athletic facilities. College supported debt service for academic facilities has been used to provide supplemental funding for projects receiving significant support from the Commonwealth or for projects where significant private support is available. The typical debt vehicle is a 20 years, fixed rate 9(c) or 9(d) bond issued by the Commonwealth of Virginia. Over the course of the bond period, the Treasurer of Virginia may refinance projects to take advantage of cost saving opportunities.

Standard and Poor's Bond Rating

The College was required to be rated by one of the major credit rating firms as part of its application for Level 3 status under the higher education restructuring act. The Act required that institutions have at least an "AA-" credit rating for consideration as a Level 3 institution. In July, 2008, Standard and Poor's reaffirmed its "AA" issuer credit rating for the College citing its strong student quality and demand, consistent break-even financial performance, and solid fund raising and endowment.

September 17-18, 2009

Page 2 of 5**College of William and Mary**

Current Debt Position—As of June 30, 2009, outstanding long-term debt totaled \$186.3 million consisting of \$42.5 million in 9(c) bonds, \$143.5 million in 9(d) bonds; and \$0.3 million in other (see Appendix A). Section 9(c) bonds are general obligation bonds issued by the Commonwealth on behalf of the College pursuant to Section 9 of Article X of the Constitution of Virginia. As such, while the College is responsible for repayment, these bonds are backed by the full faith and credit of the Commonwealth. Section 9(d) bonds are issued through the Virginia College Building Authority's Pooled Bond Program and backed by the general revenue pledge of the College. As debt is issued, the College's fee structure is adjusted to generate the funds necessary to support any new debt issuance or, in certain cases, private funds to support the necessary debt service are identified consistent with the requirements of the Debt Management Policy.

FY 2010 Debt Issues—Additional debt totaling \$14.4 million will be issued in fall 2009. Projects supported with this debt issuance include utility improvements (\$12.8 million) and improvements to athletic facilities (\$1.6 million). The College's FY 2010 fee structure as approved by the Board of Visitors in May, 2009 includes support for these projects.

Variable Rate Debt—The College currently has no outstanding variable rate debt.

Annual Debt Service Cost as Percentage of Total Operating Expense—The Debt Management Policy stipulates that maximum annual debt service cost as a percentage of total operating expense shall not exceed 10% and that debt issued in any given year shall be limited to an amount that allows the College's debt service to total operating expense ratio to remain at or below the 10% maximum. Information regarding this ratio follows:

	<u>Debt Service</u>	<u>Operating Expense</u>	<u>Ratio</u>
FY 2005	\$ 7,365,582	\$ 242,353,404	3.0%
FY 2006	\$ 9,455,463	\$ 265,176,627	3.6%
FY 2007	\$12,636,150	\$ 286,757,884	4.4%
FY 2008	\$14,339,019	\$ 327,733,851	4.4%
FY 2009 (e)	\$15,344,437	\$ 334,288,528	4.6%
FY 2010 (e)	\$17,045,481	\$ 340,974,299	5.0%

- (e) The FY 2009 ratio remains preliminary pending finalization of the College's FY 2009 financial statements. The FY 2010 ratio reflects an estimate for debt service and two percent annual growth in operating expense above FY 2009 levels.

The increase in the debt service to operating expense ratio over this period reflects College investment in new or expanded campus facilities. Major projects include construction of the Jamestown Road Residence Halls, the Integrated Science Center, and the School of Business facility as well as expansion of the Student Recreation Center and upgrades to the College's utility systems.

Debt Service authorized by the Board of Visitors and the Commonwealth but not yet issued—Debt supported capital project previously authorized by the Board of Visitors and the Commonwealth for which the College has not yet requested that debt be issued includes the following:

<u>Project</u>	<u>Authorized Debt Service</u>
Campus Center Renovations	\$35,000,000

Virginia Institute of Marine Science

Current Debt Position—As of June 30, 2009, the Virginia Institute of Marine Science has no outstanding long-term debt nor have any new debt supported projects been authorized by the Board of Visitors or the Commonwealth of Virginia.

Richard Bland College

Current Debt Position—As of June 30, 2009, Richard Bland College does not have any long-term debt. In conjunction with providing on-campus housing for its students, the institution signed a Support and Operating Agreement with the Richard Bland College Foundation to operate the residence halls opened in Fall, 2008. The Foundation financed this project by issuing \$27 million in tax exempt revenue bonds through the Industrial Development Authorities of Prince George, Dinwiddie, Sussex, and Isle of Wight counties. The College has made a general revenue pledge approved by the 2007 General Assembly in support of the debt retirement and operating costs of the residence halls.

VIRGINIA INSTITUTE OF MARINE SCIENCE
FY 2010-12 OPERATING BUDGET REQUESTS

The Virginia Institute of Marine Science has developed operating budget requests as part of the Commonwealth's budget development process. This submission is developed consistent with operating and capital amendment requests previously approved by the Board of Visitors, and the most pressing needs of the Institute and the Commonwealth.

THEREFORE, BE IT RESOLVED, that the Board of Visitors of the College of William and Mary in Virginia approves the following operating budget requests for the Virginia Institute of Marine Science for submission to the Commonwealth as part of the 2010-12 budget development process.

VIRGINIA INSTITUTE OF MARINE SCIENCE

FY 2010-12 OPERATING BUDGET REQUESTS

	<u>FY 2010-11</u>	<u>FY 2011-12</u>
Wetlands Advisory Program	\$300,000 GF 4.0 FTE	\$300,000 GF 4.0 FTE

This proposal requests the restoration of full state support for the Institute's Center for Coastal Resources Managements Wetlands Advisory Program. Originally supported with base funding to VIMS in 1972, this program has recently been supported with a mix of federal and state funds. This program currently provides extensive technical advice to Virginia's local citizen wetlands boards and VMRC as they make decisions about permit applications and their impacts on vital natural resources.

Base Operating Support	\$450,000 GF 3.0 FTE	\$450,000 GF 3.0 FTE
-------------------------------	-------------------------	-------------------------

This proposal requests base operating support for routine costs and rate increases in utilities and library materials, service contracts for high tech scientific and computing equipment, and plant operations as well as faculty and staff support in selected program areas mandated by the *Code of Virginia*.

Graduate Student Financial Aid	\$300,000 GF	\$300,000 GF
---------------------------------------	--------------	--------------

To maintain the ability to compete with other top graduate programs for the best students, VIMS needs to maintain the number and level of fellowships offered each year to incoming students. While VIMS has had significant success in securing federal funds for its various activities, many times the granting agency requires a match in the form of tuition support for graduate students. The allocation of additional graduate aid funds will allow VIMS to continue to leverage these funds. This initiative requests funds to maintain a competitive graduate program.

Fisheries Stock Assessment	\$650,000 GF 6.0 FTE	\$650,000 GF 6.0 FTE
-----------------------------------	-------------------------	-------------------------

This proposal requests state support for the monitoring of many fish populations in the lower Chesapeake Bay and its tributaries. Originally supported with base funding to VIMS and then VMRC, this 55-year-old stock assessment program has been recently supported with a combination of one-time federal and state fishing license funds. The loss of this monthly trawl survey for juvenile fish populations will make it hard for Virginia to meet its federal requirement to provide fish population abundance information to the federal regulatory entities such as the Chesapeake Bay Stock Assessment Committee and the Atlantic States Fisheries Commission, which set commercial and recreational catch limits.

Capital Markets Summary

The markets, led by the NASDAQ, moved in a decidedly positive direction through the first half of the second quarter, achieving gains in nearly every sector. Led by the technology group, the NASDAQ posted a solid gain for the quarter and year (to-date). The NASDAQ was followed closely by a strong rally in the S&P 500 that lifted the index into positive territory (quarter and year-to-date) despite a late June pull back. The Dow Jones Industrial Average also advanced sharply in the quarter and was briefly positive for the year before ending in negative territory (year-to-date). The late June pull back was attributed to a sharp decline in consumer confidence and a statement by the World Bank that said the global economy will shrink 2.9% this year (an increase from the 1.7% decline projected earlier this year).

The rebound in the markets is encouraging to see, but the late-June pull back brings into question the real strength of the recovery. This recent market activity is typical of markets that lack conviction. This lack of conviction has many perceived causes. Perhaps the reinstatement of short selling restrictions is having the intended effect of curtailing speculative trading, or perhaps the liquidation from hedge funds is removing speculative cash from the markets. While public and private leadership offer their observations and ideas, investors are hesitant to commit funds without a clearer picture of when this recession will end (for them).

Trading volume on the exchanges remains low, helping to diminish the extreme volatility seen in previous quarters. Real strength in the markets will come from conviction about the future. For the time being, earnings are stagnant, unemployment continues to rise, and the prospects for a 'V' shaped recovery decline.

Capital Markets Summary

The Administration, Treasury and Federal Reserve continue their efforts to bolster the economy and control the risk of inflation. An abundance of stimulus money has been put into the economy with more apportioned for later this year and next.

The Treasury is keeping interest rates low. San Francisco Fed President Janet Yellen recently said the U.S. central bank may keep its benchmark interest rate at or near zero for years to come to help revive the economy. However, many economists expect key interest rates to increase early next year as an anti-inflationary measure. Low interest rates have had some positive effect on housing as the sale of existing homes and housing starts increased slightly this quarter, despite anecdotal evidence banks have increased mortgage lending.

Earnings reported by domestic companies were mixed this quarter. Guidance remained neutral as the prospects for revenue growth remained uncertain. Consumer spending declined slightly and manufacturing slowed as companies continue to work off inventories. The big story this quarter was the near complete failure of General Motors (GM) and Chrysler. Chrysler was forced into a "sale" to Italian automaker Fiat. GM sold the Saturn and Hummer brands, and then benefited from U.S. government financial support and intervention with debt holders. In return, the Treasury will take (post bankruptcy) a 72.5% ownership of the ailing carmaker. This did not seem detrimental to recent Treasury auctions as foreign investors showed interest in all ranges of maturities.

Globally, the G20 Summit held in early April was as much about window dressing as meaningful substance. Summit leaders announced the pledging of over \$1 trillion, lead by the U.S. and China, to support the global economy. While China has committed to a large stimulus program within its borders, it sent a clear signal to the U.S. that its appetite for U.S. debt may have reached a peak. China's growing involvement in world economies is being viewed as an indication of their desire to have greater influence (control) in global financial matters. China's currency reserves are the largest in the world, estimated at \$2 trillion, and is the largest buyer of U.S. debt.

Domestic Equity

The major market indices snapped their quarterly losing streak at six after posting one of the best quarterly gains in the past decade. Building on its March rally, a strong April gain of 9.57% helped the S&P 500 [TR] index post a 15.93% gain for its best quarterly rise since the fourth quarter of 1998. The second quarter also put the index into positive territory for 2009 as it ended June up 3.16%. Similarly, the Russell 3000 was also able to ride its second quarter wave into positive territory returning 16.82% for the quarter and 4.20% year-to-date. Meanwhile, the DJIA closed the quarter up 11.96% and ended down only 2.01% year-to-date. The tech-laden NASDAQ Composite posted a 20.52% return for the quarter and is up 17.17% year-to-date.

Breaking down the S&P 500 by sector, the bullish sentiment that began in March was reflected in the second quarter as investors moved out of defensive sectors. All sectors reported positive gains with a majority posting double digit gains. Financials went worst-to-first as they posted a second quarter gain of 35.08% after posting a dismal first quarter loss of -29.49%. Other double-digit gainers for the quarter were Information Technology (up 19.35%), Industrials (up 18.01%), Consumer Discretionary (up 17.65%), Materials (up 15.53%), and Energy (up 10.06%). Consumer Staples and Utilities posted respective gains of 8.87% and 8.83% in the quarter, followed by an 8.27% gain in the Health Care sector. Telecommunication Services trailed the other sectors with a 1.90% gain in the second quarter.

Domestic Equity (cont.)

In comparing capitalization, mid-caps edged out small-caps for the quarter as the Russell MidCap rose 20.80% while the Russell 2000 gained 20.69%. The megacap Russell Top 200 rose 14.93%, while the large-cap Russell 1000 rose 16.50%. Mid-caps continue to pace the other caps for 2009 with a year-to-date return of 9.96%.

In comparing styles, the Russell 1000 Growth (up 16.32%) narrowly trailed the Russell 1000 Value (up 16.70%) for the quarter, but remains far ahead for the year-to-date with a 11.53% return for 2009 versus a -2.87% return for the Russell 1000 Value. In smaller caps, the Russell 2000 Growth outperformed the Russell 2000 Value 23.38% to 18.00% for the quarter due to a comparatively stronger May and June. In individual stocks, Cisco Systems (CSCO) and Travelers (TRV) joined the DJIA on June 8th replacing General Motors (GM) and Citigroup (C).

For the quarter, Bank of America (BAC) gained 93.55% to lead the Dow followed by American Express (AXP) which was up 70.51% and Alcoa (AA) which gained 40.74%. The second quarter only had three companies in negative territory. Wal-Mart (WMT) was the Dow's big loser falling 7.02% for the quarter as investors moved away from the world's largest discount retailer into more discretionary retailers. Chevron (CVX) which was down 1.47% and AT&T (T) which fell 1.43%, followed as the other two negative performers in the Dow. On the S&P 500, another financial led the pack as Genworth Financial (GNW) posted a 267.89% gain followed by Office Depot (ODP), which was up 248.09%. On the negative side, Keycorp's (KEY) construction market exposure weighed the stock heavily as it fell 33.42% and CIT Group (CIT) fell 24.91% on bankruptcy fears showing that not all financials had a rosy quarter. Battered in previous quarters, casino operator WYNN Resorts (WYNN) led the NASDAQ with a 76.77% gain while Cephalon (CEPH) fell 16.8% after a stock offering in May and disappointing phase three trial for Lestaurtinib, its Leukemia drug.

International Markets

International stocks as measured by the MSCI EAFE performed very well in the second quarter, posting double digit gains in April and May (up 12.96% and 12.01%, respectively) followed by a very slight loss (down 0.54%) in June to finish the quarter with a 25.85% return, greatly outperforming the S&P 500 which posted a gain of 15.93%. This brought the EAFE back into positive territory for the year-to-date at 8.42%. Emerging markets shares experienced an even better quarter than developed issues as the MSCI Emerging Markets Index jumped up 34.84% for its second positive quarterly performance in a row. The index is now up 36.22% year-to-date. The outperformance of emerging market stocks in the first half of the year was aided by net positive capital flows. In fact, a Citigroup survey reports that 2009 inflows into emerging markets funds have erased over half of the outflows that occurred in 2008.

Unemployment appears to be as much of a problem abroad as it is in the United States. The Euro-Zone's unemployment rate was up in May to 9.5%, a ten year high, compared with 7.4% one year ago. Spain had the highest rate at 18.7% while the Netherlands was the lowest at just 3.2%.

The quickly growing, so-called BRIC countries (Brazil, Russia, India and China) held their first summit in June. One of the goals of this summit was to bring more attention to emerging economies with hopes that they can have a larger influence in global economic issues. Russia and China have agreed to make an effort to work towards a decreasing dependence on using US Dollars as a reserve currency and an increased role for the Ruble and Yuan in international trade. The MSCI BRIC index finished the second quarter up 41.21%.

Despite these results, uncertainty remains the theme heading into the second half of the year as investors attempt to decide whether the economy is actually improving or the markets were just coming back from an overreaction to the global economic troubles of 2008.

One Year Emerging Market Country Returns
as of June 30, 2009

Fixed Income

In general, fixed income markets returned to their typically stable status. The Barclays Capital US Aggregate Index posted monthly gains of 0.48% in April, 0.73% in May, and 0.57% in June. Overall, the US Aggregate index returned 1.79% for the second quarter. The returns were largely buoyed by the corporate and municipal markets. The Barclays Capital US Corporate Investment Grade index returned 10.44% for the quarter, with the Barclays Capital US Municipal Bond index returning 2.11%.

The returns in the municipal market were particularly strong considering the trouble that many states and municipalities are having with their budgets. The economic slowdown has caused sales tax receipts to drop as consumers have curbed discretionary spending, and property taxes have fallen along with the declines in the housing markets. Most notably as the quarter drew to a close, California still had not finalized their budget and was preparing to issue IOU's to those who were due payment from the state. This would normally be a warning sign to investors in bond markets, but in the specific case of California, bond holders are second in line for payments from the state, schools being first in line. Many states have similar setups, cushioning municipal investors from potential losses.

Treasuries were the main weakness in fixed income markets. The Barclays Capital US Treasury 1-3 Year index was down -0.14%, and the Barclays Capital US Treasury 7-10 Year index was down -5.05%. The decline in the Treasury indexes can be tied to two main factors. First, as the equity markets continued to improve from their recent lows, investors eased on the flight-to-quality that we experienced over the past few quarters. Many investors were seeking refuge in government backed paper to ride out the turbulent equity markets, which in turn drove up prices on government bonds.

Fixed Income (Cont.)

As those investors sold their fixed income holdings, prices were driven lower resulting in losses in the Treasury market.

For a brief period in June, 10-year Treasury bonds were yielding more than 4%, nearly twice as high as only six months ago. The sudden spike in yields is partly due to the record level of Treasury auctions taking place as the government seeks out funds for its continued economy recovery plans. As a flood of paper hits the markets, rates are being driven higher in order to attract buyers, hurting those holding lower coupon Treasury debt.

From the corporate debt perspective, the continued bailouts and bankruptcies in the equity markets have strong ties back to the firms' corresponding debt. While bankruptcies often can threaten the bond holdings of investors, they have not been completely shut out of the process. Most notably, GM's bankruptcy has left approximately 10% of the post-bankrupt company's common equity in the hands of their previous debt owners. A final eleventh hour negotiating session prior to bankruptcy didn't yield as favorable of an agreement as the bond holders would have hoped, but it still kept them included in the process.

All in all, it was a relative return to normalcy for bond markets. The wild swings of 2008 have been replaced by steadier fixed income markets overall, with the Barclays Capital US Aggregate index posting slightly higher returns in the first two quarters of 2009.

Commodities

Commodities continued to advance in the second quarter on the hopes of a global economic recovery. Late-in-the-quarter profit taking figured into the returns after poorer economic growth comments from the World Bank were released.

Gold rallied early in the quarter as the dollar weakened as fears of inflation increased. Inflationary consensus changed (again) in June and resulted in gold posting a slight loss for the quarter. Gold is up 5.37% for the year.

Metals, lead by Copper (+23%), advanced in the quarter based largely on supply demand by China but followed the equity markets lower in late June.

Oil hit an eight month high, crossing over \$70 per barrel on demand expectations and was further supported by speculators as rumors of \$200 per barrel oil circulated in the futures markets. Oil's rapid advance during the quarter (+40%) was stalled after an increase in inventory supply numbers, and a lower than expected demand for gasoline heading into the summer driving season, kept oil from advancing further.

Currency

Given the current global economic climate, no one currency is gaining disproportionate strength. The Pound, Yen, Euro and Yuan are all up year-to-date versus the U.S. Dollar. As expected, Russia and China called for a new world currency to replace the U.S. Dollar. Their remarks received only moderate support from some G20 members indicating little, if any, action will be taken to advance this proposal. However, China has voiced their intentions to reduce the amount of U.S. debt purchased which could ultimately put more pressure on the dollar and decrease its global attractiveness.

II. Executive Summary

Observations & Recommendations

The 2nd quarter enjoyed a healthy rebound from significant losses taken in the 4th quarter of 2008 and the 1st quarter of 2009. The rally in equity markets that began in mid-March continued well into May before cooling off a bit toward the end of the quarter. All told, the U.S. equity market has gained nearly 40% through June from the lows set in early March. Programs put in place by the U.S. Department of Treasury and the Federal Reserve have, for the most part, been successful in stabilizing the banking sector. As evidence, some institutions have begun repaying TARP funds while conversation has moved on to how the Fed and the Treasury will handle inflation and the volume of debt being issued. Unemployment currently sits at 9.5% and 1st quarter 2009 GDP was revised to -5.7% from -6.1%.

Most of the major indexes worked their way into positive territory in the 2nd quarter after having been down double-digits through early March. Credit spreads continued to tighten versus their duration equivalent Treasuries, and lower quality bonds have reaped greater gains than higher quality securities. Year-to-date, the Barclays U.S. Aggregate is up 1.9%. Despite a bit of a decline in June, municipals continued to gain ground following a very difficult 2008. The Barclays Municipal Bond Index rose 2.1% for the quarter and finished the fiscal year with a gain of 3.8%.

Total Portfolio: *The William & Mary Board of Visitors (BOV)*
Endowment recorded a 15.6% gain (net of fees) for the 2nd quarter, outpacing the target benchmark of 15.2%. For the 2009 fiscal year, the BOV fell 21.8% versus a decline of 19.4% for the target benchmark. 2009 Calendar YTD results have been solid. The BOV is up 7.6% for the six months in 2009 versus a gain of 6.0% for the target benchmark.

Domestic Equity: Large-cap value manager *Blackrock* lagged the Russell 1000 Value Index this quarter (+11.0% vs. +16.7%). A significant detractor to performance came from an underweight and stock selection in Financials, where a focus on property and casualty insurance companies such as Chubb Corp. (-4.9% for the quarter), rather than banks and diversified Financials

hurt performance. An additional drag was stock selection in the Consumer Discretionary sector where the strategy owned off-price retailers such as Family Dollar (-14.8% this quarter) that benefited from the trade-down trend in consumer buying patterns, but have lagged in the rally.

Large-Cap growth manager *Altheia* posted strong relative returns for the three-month period, gaining 22.8% versus the Russell 1000 Growth Index return of 16.3%. Stock selection in technology was a positive attribute with names such as Dell, Inc. (+44.8%) and L-1 Identity Solutions (+51.5%). General stock selection within the top 10 holdings further boosted gains as evidenced by MGM Mirage (+174.3%) and General Cable Corp. (+89.6%).

Wells Capital Mid Cap trailed their bogey for the quarter (14.5% vs. 20.7%). Underperformance was a result of both stock selection and sector allocation. Core positions in Healthcare and Information Technology detracted from relative performance. Healthcare holdings were the largest drag primarily due to positions in biotech and life sciences companies. Another headwind for the sector continued to be ongoing discussion about potential healthcare reform. Stock selection within Information Technology hurt, particularly within the area of software. *Artisan* (value) replaced the U.S. Midcap Value ETF in May. We will begin reporting on Artisan's results in the next report.

The BOV's U.S. small-cap manager, *Royce*, recorded a phenomenal 36.9% gain for the three-month period, outpacing the benchmark by 1,620 basis points. Their result is primarily due to the fund's larger Technology holdings, with names such as Maxwell Tech (+99.0%) and Spartech Corporation (+273.6%). An overweight to Industrials also boosted results.

International Equity: *Delaware International Value* posted a solid absolute gain of 20.4%, but underperformed the EAFE index (+25.9%) for the quarter. An underweight to Sweden hurt as well as positions in Takeda Pharmaceutical and Kao. *Artio* (growth) replaced the International Growth ETF in May. We will begin reporting on Artio's results in the next report.

Executive Summary

Observations & Recommendations

Domestic Fixed Income: The 2nd quarter saw a continued positive tone in the bond markets. Over the period, 10-year Treasury rates rose by +0.8%, and the Treasury yield curve between two-year and thirty-year maturities steepened by 43 basis points, as buyers continued to sell Treasuries for riskier assets and anticipated rising inflation as the economy heats. For the quarter, Treasuries overall fell 3.0%, with the long Treasury component down -7.1%. Despite rising rates, non-Treasury sectors of the benchmark demonstrated consistently positive returns. For the quarter, the Barclay's Capital Aggregate Bond Index rose 1.8%. The *State Street Passive Bond Index Fund*, which is structured to mirror the Barclays Capital Aggregate Bond Index, rose 1.7% for the quarter.

International Fixed Income: Led by the U.S. dollar's fall versus developed countries, the Citigroup World Government Bond Index gained a solid 3.5% for the latest quarter. This influenced the *GMO Global Fixed Income* which rose 9.0% for the quarter and is up 6.7% calendar YTD. The fund benefited from its exposure to spread product (benchmark is 100% government) and its Asset-Backed positions which were in favor.

The JPM EMBI+ Index delivered a 10.8% quarterly return, as the index spread widened by 224 basis points to 433 basis points during the period. The *GMO Emerging Market Fixed Income Fund* recorded a strong 15.3% gain for the quarter and is up 19.6% YTD (500 bps ahead of the index). Market selection accounted for 325 bps of positive alpha. Overweightings to the biggest index gainers (Argentina and Ukraine) contributed to outperformance. Also, underweights to Brazil, Mexico, and China aided results.

Core Plus Fixed Income Manager Search: We have identified five firms to consider for the core plus fixed income mandate. The proposed new manager will replace the passive fixed income strategy currently managed by State Street. We expect to have this analysis and recommendation prepared in time for the September meeting.

July 2009 Performance Update: Following a loss of momentum in late June and a small sell-off in early July, the markets have gained traction again as the month came to a close. The gains achieved year-to-date across almost all asset classes are encouraging yet we are a long way from regaining losses from 2008. The consensus on the street is that equity shares are still undervalued. Credit spreads continue to tighten though not at the pace seen earlier in the year. Treasuries continue to underperform as more and more investors show a willingness to take on additional risk. *The BOV portfolio posted a gain of 6.6% in July with the equity portfolio rising 8.5%. Calendar year-to-date through July, the BOV Total Portfolio is now up 14.7% compared to a 13.1% gain for the target benchmark.*

Mr. Bob Dillman, the College's Building Official, provided a brief report. The Code Review Team (CRT) is working steadily to permit all projects occurring during the summer break. The state fire marshal and his chief engineer visited campus a second time regarding the new School of Business; again there were no findings to report. The College awaits a final inspection report from Department of General Services; the draft was distributed in October 2008. The committee had no questions.

Director of Planning and Budget for VIMS, Ms. Carolyn Cook updated the committee on VIMS capital project progress highlights via power point. She previewed the Board's visit to campus later today. She also presented VIMS' 2010-2016 capital plan, highlighting projects for property acquisition and consolidation of research space. The committee had no questions. Ms. Brashear requested a motion to approve Resolution 2. Motion was made by Ms. Ukrop, seconded by Ms. Hornsby, and approved by voice vote of the committee.

Vice President for Administration, Anna Martin reported briefly on restructuring and revised language allowing a part time building official under the renegotiated management agreement. Ms. Martin also provided a powerpoint presentation highlighting construction activity from the enclosed project report.

Ms. Martin presented to the committee the College's recommended capital outlay six year plan for 2010-2016. Guidance from Department of Planning & Budget had just been received April 15. Ms. Martin reviewed the highlights of the request, including continued investment in infrastructure, the funding request for the third phase of the Integrated Science Center and the renovation of Tucker Hall in the 2010-2012 biennium. Ms. Brashear requested a motion to approve Resolution 3. Motion was made by Ms. Ukrop, seconded by Mr. Thomas, and approved by voice vote of the committee.

There being no further business, the committee adjourned at 8:45 a.m.

**VIRGINIA INSTITUTE OF MARINE SCIENCE
CAPITAL OUTLAY PROJECT PROGRESS REPORT**

268-16522 Marine Research Building Complex

Appropriation Amount: \$31,214,371

Design Team: Clark Nexsen Architects and Engineers

Fund Sources: General Funds

GOB & VCBA Bonds

Higher Education Operating

Biennium: 2000-2002

Obligated to Date: \$31,128,987

Contractor: W.M. Jordan and Company

This appropriation funds the planning and construction of a project to demolish and replace outdated laboratory buildings with Andrews Hall, a new 71,000 square foot scientific research building and a separate 46,000 square foot seawater laboratory. The demolition of eight laboratory and ancillary buildings which were replaced by the Marine Research Building Complex was completed on March 6. The area will be developed as green space. With the exception of a few remaining punchlist items, the project is complete.

268-17094 Field Support Center

Appropriation Amount: \$2,000,000

Design Team: MMM Design Group

Fund Source: VCBA Bonds

Biennium: 2004-2006

Obligated to Date: \$1,907,197

Contractor: Ritchie-Curbow Constr. Co.

The project involves the construction of a 10,000 square foot facility located at the Gloucester Point Campus. This facility will replace the current vessel operation's facilities and field support infrastructure that was severely damaged as a result of Hurricane Isabel. The foundation walls and floor slabs elevated above the flood plain are complete and the pre-engineered building is being erected. Construction is scheduled for completion in November 2009.

268-17489 Construct Concrete Pier

Appropriation Amount: \$1,450,000

Design Team: Moffat and Nichol, Inc.

Fund Source: General Funds

Biennium: 2006-2008

Obligated to Date: \$1,430,349

Contractor: Precon Marine, Inc.

The project replaces two damaged wooden piers with a new concrete pier on the VIMS Gloucester Point shoreline. This pier will house the pumps and intake lines for running seawater at VIMS including the new Seawater Lab. The elevation of the pier is set at twelve feet nine inches above mean low water. The pier, pump house, and electrical work are complete. Demolition of the two wooden piers will be complete in September.

September 17-18, 2009

Page 2 of 4 **268-17085 Improve Information Technology Infrastructure**

Appropriation Amount: \$1,200,000

Design Team: Agency

Fund Source: VCBA Bonds

Biennium: 2004-2006

Obligated to Date: \$1,140,132

Contractor: Various

The project involves the modernizing of VIMS' aging information technology infrastructure to meet increasing demands for information exchange including systems to carry voice, data, and video. The Gloucester Point campus is vulnerable to lightning strikes and this project has completely replaced the original copper network with new high speed fiber optics. Also, distance learning capabilities have been completed for the Gloucester Point and Wachapreague campuses. Construction to improve the air conditioning and power requirements for the Watermen's Hall network server room has been completed. New servers have been purchased. Along with networking Andrews Hall and the Seawater Research Laboratory, VIMS has extended 24x7 networking capability to the Fisheries Science Laboratory. This service will also be provided to Chesapeake Bay Hall pending completion of the electrical upgrades. Redundant fiber-optic cable network service is currently being installed through the area where eight buildings were demolished. Finally, upgrades of Watermen's Hall copper network infrastructure are planned.

268-17447 Electrical Upgrades, Chesapeake Bay Hall

Appropriation Amount: \$267,500

Design Team: McKinney & Company

Fund Source: VCBA Bonds

Biennium: 2006-2008

Obligated to Date: \$22,723

Contractor: E.G. Middleton, Inc.

The project involves upgrading the electrical distribution system at Chesapeake Bay Hall. The building's present electrical system does not provide the type of clean power needed by some of the sensitive electronic lab equipment and instrumentation used in modern research. The project will install transient voltage surge suppression and other improvements to the grounding system and a second emergency generator. Construction is underway with completion expected by the end of the year.

268-16863 Research Storage Facility

Appropriation Amount: \$641,000

Design Team: DJG, Inc.

Fund Source: General Obligation Bonds

Biennium: 2002-2004

Obligated to Date: \$62,621

Contractor: TBD

The project involves the construction of a 4,600 square foot facility that is needed to secure research equipment and instruments that are currently stored outdoors. The environmental impact report was approved on March 23. Schematic Design was approved in August, and the project is now in the Working Drawing phase.

Progress: McKinney Architects/Engineers performed a study of heating/hot water options to determine the most efficient and economical mix of systems for the mixed building inventory of residences and office suites. Combined, "packaged" heating/hot water units were determined to be optimum. Design is complete for all phases. Construction of Phase 1 (Sorority Houses 1 – 9) and 2 (Brown Hall, Davis House, Prince George House and Sorority 12) is complete. Phase 3 (Davis House and College Apartments) are scheduled for the summers of 2009 and 2010, respectively. Western Union is complete. Design Team: RMF Engineering
Budget: \$6,020,401
Fund Source: GF, 9d Bond

Biennium 2008 - 2010
Obligated to Date: \$4,453,341

Description: A 3600 gsf Cooling Addition is attached to the south wall of the existing Power Plant. The Addition will be equipped with three 900 ton chiller units and a 400 ton ice plant (in order to provide a thermal reserve for peak demand) over three phases. During Phase 1 (2008-2010), the building envelope will be constructed and chiller units 1, 2 and 3 installed. Authority to install a 4th chiller is being pursued to take advantage of the current bid climate.

Progress: Design of the Cooling Addition and all chillers is complete. Construction of the building envelope and chillers 1 – 3 has been awarded through competitive negotiations (construction management); construction will start in September, and is estimated to take twelve months.

204-17651-02 – Replace: Historic Campus Utility Improvements, Ph 1 (of 3)

Design Team: RMF Engineering
Budget: \$2,945,000
Funding Source: General Funds

Biennium: 2008 - 2010
Obligated to date: \$3,861
Contractor: TBD

Description: New lines will be installed to distribute chilled water from the new Cooling Addition to 27 buildings on the Historic Campus and south of Jamestown Road. Installation will be performed in a maximum of three phases to support the chiller capacity installed in the three phases of the Cooling Addition construction and fit out. New steam lines will be laid in the same trenches excavated for the new chilled water lines in order to replace the existing steam lines which have far exceeded life expectancy. Laying both chilled water and steam lines in a single excavation maximizes return on investment and produces a completely new distribution system.

Progress: Preliminary designs were reviewed in August by the Code Review Team. Construction drawings will be submitted to the Code Review Team in October to support advertising the project in Dec and a construction start in Jan/Feb. A twelve month construction schedule is anticipated.

204 – 17189 Design: New School of Education

Biennium: 2006 - 2008
Contractor: Barton Malow
Obligated to date: \$41,123,192

Description: Construction of the New School of Education, a 113,000 GSF facility for undergraduate and graduate instruction, research and outreach.

Progress: Exterior brickwork is 90% complete. Window installation, interior framing and rough-in are in progress. Installation of HVAC equipment to condition the interior space is also underway to permit completion of interior finish work. The order of work is east wing, north wing, and west wing. Equipment funding was approved by the 2009 General Assembly. Vendors have been selected for both A/V and fixed furnishing and equipment (FFE) and orders have been placed. The project is on schedule, and completion scheduled for spring, 2010.

204-17093 Construct: Emergency Generators

Design Team: McKinney
Appropriation Amount: \$1,600,000
Fund Source: VCBA

Biennium: 2004 - 2006
Obligated to Date: \$1,373,270
Contractor: Multiple firms

Description: Installation of emergency generators in critical campus facilities: Facilities Management Building (site of the Crisis Action Center); Adair Hall (experiment refrigeration); the Graduate Housing Pump Station (sanitary sewer pump station); Jones Hall (computer center machine room); the Recreation Sports Center (total building operations to support emergency housing); the Integrated Science Center (vivarium support and experiment refrigeration); and critical IT nodes in three locations. Additionally, the emergency power units from Sentara Williamsburg Community Hospital were acquired using project funds.

Progress: A budget review determined that sufficient funds remain to design emergency power connections for the Student Health Center. Design is complete and bids are due in October. A 90 days construction period is anticipated following award. If residual funds remain following construction, the next priority for design is the Brafferton.

(GOB) 204-16784 Construct: Addition/Renovation Small Hall

Appropriation Amount: \$28,281,000
Design Team: Burt Hill
Fund Source: GOB, GF, VCBA funds

Biennium: 2002-04
Obligated to Date: \$22,100,520
Contractor: W.M. Jordan

Description: The project will provide 22,000 GSF in new space and renovation of 65,000 GSF in this 1964 facility, including correction of structural issues, replacement of all building systems and modernization of teaching and research lab spaces.

Progress: Site work, utility installation, foundation and building envelope construction for the additions have been permitted and are underway. Construction started in December 2008 for the new lab addition and high bay assembly space. Completion is scheduled for February, 2009. This is a delay from the previously reported completion due to the need to repair defects in the library addition structural framing, which were uncovered during demolition. Design is complete for the required repairs and the work is in progress. The renovation of the existing building will be initiated as soon as the additions are complete. The revised completion date is April, 2011.

(GOB) 204-16786 Renovate: Andrews Hall

Appropriation Amount: \$3,801,000
Design Team: McKinney
Fund Source: GOB

Biennium: 2002-04
Obligated to Date: \$59,725
Contractor: TBD

Description: The project will support selected building system upgrades to a 1967 era facility to the extent possible, given the necessary transfer of \$1.6M to Small Hall. Targeted building systems include the fire suppression system, handicapped accessibility, and mechanical/ electrical systems.

Progress: McKinney Architects assessed the building systems in detail and determined that hazardous material remediation (asbestos and lead paint), and system upgrades for fire and life safety, accessibility, HVAC, and electrical service can be accommodated within budget. Additives for replacement of studio exhaust systems, power distribution, and restroom renovations are being designed in order to capture any additional scope which might be supported in current bid climate. Preliminary designs are in code review and construction drawings are scheduled for submission in early December to enable a start of work after graduation. A Construction Manager will be selected in October to assist with constructability reviews, phasing development and cost estimating. Project phasing is anticipated over two summers and a Christmas Break in order to execute the work without disrupting the academic program.

204- 17652 Renovate: Tucker Hall (Detailed Planning)

Design Team: Cunningham-Quill
Budget: \$563,500
Funding Source: VCBA

Biennium: 2008 – 2010
Contractor: TBD
Obligated to date: \$431,686

Description: The project will reconfigure and improve the 1909 era Tucker Hall, last upgraded prior to 1980. Department of English classroom space, technology, and support space will be modernized. Deteriorated building systems will be replaced, accessibility improved throughout the facility (3 stories tall with 6 different floors), and life safety brought up to current code. Exterior doors and lighting will be restored. The current appropriation authorization supports only schematic and preliminary design funds for a single phase renovation.

Progress: Schematic design and cost estimates are complete; the authority to proceed with preliminary design document (PDs) development has been given and PD's are expected for submission to code review in December. Funds to support continuation into construction documents, (CDs) and construction award were requested but not approved during the 2009 General Assembly. Therefore, design will likely be paused after PD completion, resulting in an 18 month delay to the project schedule.

Once funds are authorized, a construction manager (CM) will be selected, the preliminary design cost estimate will be validated, the project scope adjusted as required, and the design/construction sequence will continue.

All tenants have been relocated (English to Tyler Hall, Charles Center to Blow Hall, and Writing Center to Swem Library). The building is now closed and utility support minimized while waiting for CD/construction funds. As soon as funding is provided, destructive testing, as required, will be performed to support CD preparation. As CDs are being completed, the CM will be released to remediate hazardous materials and perform required demolition to prepare the building for renovation.

204-17650 Construct: Integrated Science Center Ph 3 (Pre- Planning)

Design Team: TBD
Budget: \$250,000; \$2.2M
Funding Source: VCBA; Federal Stimulus

Biennium: 2008 – 2010
Contractor: TBD
Obligated to date: \$0

Description: Pre-planning funds have been provided to conduct a feasibility study to develop a conceptual design and associated schedule and budget.

Progress: A preplanning study conducted in August, 2007 by Moseley Architects was updated and validated in March, 2009 with the Dean, Faculty of Arts & Sciences, and the Vice Provost. The revised study was submitted to DPB for consideration by the newly legislated Six Year Capital Outlay Plan Advisory Committee. A budget

amendment requesting \$5.3 million for design development was submitted to the 2009 General Assembly. The Assembly authorized \$2.0M in NGF/College funds (to be reimbursed later by the Commonwealth) and \$2.2M in Federal (stimulus) funds. Architect selection is being initiated on a schedule that uses Federal funds thru calendar year 2010 (2nd quarter FY 2011) and defers the use of College funds. The College will need to determine the source of the project's NGF.

Description: Re-cladding of units 3, 6, and 7 in the graduate dormitory complex.

Progress: This project will finish the job begun under previous appropriations (including 17281). The re-cladding of the three remaining buildings in the nine building complex has been contracted in a single solicitation. Construction is phased for summers 2009 (Bldg 3), 2010 (Bldg 6) and 2011(Bldg 7). The successful bidder, Virtexco, is the same firm which successfully re-clad all buildings to date, with the exception of Bldg 5. Re-cladding of Bldg 3 was completed this August. Recladding of Bldg 6 will begin immediately after graduation, 2010. Work on Bldg 7 in summer 2011 will complete the project.

Progress: Final design review is complete and a building permit has been issued. The construction manager has mobilized, the site has been cleared, temporary access to Sadler Center is in place and electrical service installed in order to avoid impacting Zable stadium during the football season (the facilities are fed from the same transformer). MINUTES
Committee on Academic Affairs
April 16, 2009
Board Conference Room – Blow Memorial Hall

Attendees: Committee members Anita O. Poston, Chair; Colin G. Campbell, Kathy Y. Hornsby, Robert E. Scott. Others in attendance: Board faculty representative Katherine M. Kulick, Staff Liaison Ann Repeta; Assistant Attorney General Deborah Love; Provost P. Geoffrey Feiss, Dean Carl J. Strikwerda; members of the Faculty Liaison Committee; Brian W. Whitson and Sandra J. Wilms.

Chair Anita Poston called the meeting to order at 10:30 a.m. Noting that this was the Committee's last meeting with Provost Feiss, Ms. Poston asked him to reflect and at the end of the meeting tell them what three wishes he would have for the College.

Recognizing that a quorum was present, Ms. Poston asked for a motion to adopt the minutes of the meeting of February 5, 2009. Motion was made by Mr. Scott, seconded by Ms. Hornsby and approved by voice vote of the Committee.

Provost P. Geoffrey Feiss provided a brief report on admissions applications, noting the quality of admitted students was up from previous years. A brief discussion on the admission process ensued.

The Provost commented on the level and commitment of faculty and staff in the strategic planning process and expressed his appreciation for their work effort. The general education curriculum review will be a very time intensive part of the process. A brief discussion ensued.

Dean Carl Strikwerda reported on progress toward the development of the joint degree program with the University of St. Andrews, noting that a group was here this week to meet with William and Mary faculty and tour the campus. Dean Strikwerda reported that he and the Dean of Arts from St. Andrews were working through the curricular and structural issues. The history, economics and international relations portions are good to go, but more work is needed on the English portion, and admission and budget issues are still to be finalized. As soon as the curricular and structural issues are resolved, the intent is to bring it to the faculty and then bring it to the Board in September. Both SCHEV and SACS need to approve the program for accreditation. A brief discussion ensued.

Chair of the Faculty Liaison Committee Professor Gene Tracy reported that the faculty continue to be very involved in strategic planning and thanked Provost Feiss and Vice President Jim Golden for keeping the process as open as possible. Professor Tracy noted faculty concern regarding implementation and institutional priorities, the desire to make sure faculty concerns and thoughts continue to be heard, and expressed confidence that the faculty will continue to be fully engaged in the process. A brief discussion ensued.

The Provost reviewed **Resolution 20**, Revision of the Bylaws of the School of Education. A brief discussion ensued.

The Provost then reviewed **Resolution 21**, The Lemon Project: A Journey of Reconciliation, providing background information regarding what led to the decision to create this long-term research project to chronicle the life and history of blacks at the university and in greater Williamsburg. The eight-year project will be sponsored by the Office of the Provost in collaboration with the Office of Student Affairs and the Department of History and will be modeled on a similar project at Brown University. There are opportunities for collaboration with Colonial Williamsburg as well. Professor Robert F. Engs, who will be retiring from the University of Pennsylvania, and who has been the visiting Harrison Professor at the College will lead the effort with the aid of a graduate student. This effort will also tie into a conference to be hosted by the College in 2013 on the sesquicentennial of the Civil War. A brief discussion ensued.

Provost Feiss reviewed the retirement resolutions: **Resolution 22**, Retirement of Ismail H. Abdalla, Department of History; **Resolution 23**, Retirement of P. Geoffrey Feiss, Department of Geology; **Resolution 24**, Retirement of David H. Finifter, Department of Economics; **Resolution 25**, Retirement of James F. Harris, Department of Philosophy; **Resolution 26**, Retirement of Thomas Lee Heacox, Department of English; **Resolution 27**, Retirement of Dale E. Hoak, Department of History; **Resolution 28**, Retirement of Virginia B. Kerns, Department of Anthropology; **Resolution 29**, Retirement of David E. Kranbuehl, Department of Chemistry; **Resolution 30**, Retirement of Don A. Monson, Department of Modern Languages and Literatures; **Resolution 31**, Retirement of Joyce VanTassel-Baska, School of Education; and **Resolution 32**, Retirement of Stewart A. Ware. Department of Biology.

Mr. Scott moved adoption as a block of Resolutions 20 through 32; motion was seconded by Mr. Campbell and approved by voice vote.

In response to Ms. Poston's earlier question regarding what three wishes he would have for the College, Provost Feiss stated that the first would be to make sure to recruit and retain the very best faculty and students. The second would be to remain committed to the liberal arts, preparing people to be life-long learners and critical thinkers. Finally, the Provost stated that William and Mary will only thrive if it continues to be a diverse community in every metric, retaining a sense of community for everyone. A brief discussion ensued.

Ms. Poston asked for a motion that the Committee on Academic Affairs convene in closed session for the purpose of discussing and/or approving personnel actions involving the appointment, promotion, tenure and leaves of specific college employees, as provided for in Section 2.2-3711.A.1. of the Code of Virginia. Motion was made by Mr. Scott, seconded by Mr. Campbell and approved by voice vote of the Committee. The observers were asked to leave the room and the Committee went into closed session at 11:20 a.m.

The Committee reconvened in open session at 11:28 a.m. Ms. Poston reviewed the topic discussed during closed session for the benefit of the observers, then asked for a motion to adopt the **Resolution** certifying that the closed session was held in compliance with the Freedom of Information Act. Motion was made by Mr. Campbell, seconded by Mr. Scott and approved by

COLLEGE OF WILLIAM AND MARY
CONFIRMATION OF ACADEMIC TENURE

The *Faculty Handbook* (Section III.B.1.a.) defines an appointment with academic tenure as follows:

The College accepts the principle of tenure and adheres to it as a moral, professional, and legal obligation. Tenured faculty members are those persons who have been affirmatively confirmed in such status by action of the Board of Visitors on recommendation of the President subsequent to appropriate peer and administrative review. An appointment with tenure may be terminated by the College only for adequate cause.

The *Handbook* (Section III.B.2.) further states:

Subject to the approval of the Board of Visitors, tenure will be granted to a full-time faculty member who has attained the rank of assistant professor or higher upon the member's continuation beyond seven years (including authorized leaves of absence except as discussed in Section III.F.7.) as a full-time faculty member of any accredited institution of higher learning or in a professional position relevant to the faculty member's academic appointment at the College; provided that if part of the seven years is represented by service other than at the College, the faculty member may be required to serve a probationary period of as much as four years at the College immediately before tenure is granted, even if the total full-time service thereby exceeds seven years....

The *Handbook* stipulates the procedures which must be followed at the departmental, faculty, and administrative levels in the development of recommendations for the confirmation of a status of academic tenure. Recommendations so developed are submitted to the President, whose "decisions are final subject to approving action by the Board of Visitors."

Through these procedures the following member of the Faculty of the College is now recommended for confirmation of academic tenure.

BE IT RESOLVED, The Board of Visitors of the College of William and Mary approves the following member of the Faculty be awarded tenure, effective 1 July 2009.

ARTICLE 1: Faculty Definitions.***Section 1: The Virginia Institute of Marine Science Faculty.***

There exists a Faculty of the Virginia Institute of Marine Science ("VIMS"), within The College of William & Mary ("The College"), known hereafter as "The Faculty". Members of The Faculty hold appointments as Faculty of The College of William & Mary in the Virginia Institute of Marine Science. These appointments require approval by the Board of Visitors of The College. It is the responsibility of The Faculty to promote the welfare of the institution, to assist the Dean and Director (hereafter "Dean/Director") in the successful pursuit of quality and excellence in the institution's tripartite mission of research, education, and advisory service, and to promote the creation, maintenance, and protection of a University environment conducive to the growth of scholarship, creativity, learning, teaching, research, service, and respect for human dignity and rights. There exists within the Virginia Institute of Marine Science an academic program conferring graduate degrees in marine science in The College of William & Mary, known as The School of Marine Science (SMS). The mission of the SMS is higher education and, in particular, graduate education in the marine sciences. The Dean/Director is also the Dean of the SMS. Faculty appointments include tenure-eligible and tenured Faculty, as well as tenure ineligible Faculty in any series with equivalent rank and qualifications that has been duly approved by the Board of Visitors of The College. Faculty holding the title "Emeritus" are non-voting members of The Faculty. Tenured and tenure-eligible Faculty have the principal responsibility for the academic programs of the SMS.

The Faculty consists of those individuals duly appointed through approved policies and procedures for search and appointment to The Faculty. The Faculty is organized administratively in Departments that reflect the interdisciplinary nature of marine science, and support the tripartite mission of VIMS as defined in the Code of the Commonwealth of Virginia, these Bylaws, The Faculty Handbook of The College, and the Bylaws of the Board of Visitors of The College of William & Mary. The Department organization is determined by the Dean/Director in consultation with The Faculty. Chairpersons for each Department are elected by the Department Faculty and appointed by the Dean/Director. The Faculty reports through the designated Department Chairs to the Dean/Director. The Chair reports regarding research matters through the Director for Research and Advisory Services, and regarding educational matters relating to the academic and graduate degree programs through the Dean of Graduate Studies. To insure uniformity in the academic program across departments, an Academic Council has been established by the Faculty. The Academic Council advises the Dean/Director on matters related to the academic and degree programs and reports to the Faculty Council at its regular meetings.

The Faculty participates in generally accepted forms of governance found at institutions of higher learning in the Commonwealth of Virginia and this country. Faculty governance is

accomplished through a representative body known as the Faculty Council, whose members receive their authority from The Faculty. The Council's elected Representatives consult with and advise the Dean/Director on matters of concern to The Faculty and the operations of VIMS. The Faculty Council also responds to specific requests for information and advice made by the Dean/Director, the Director for Research and Advisory Services, or the Dean of Graduate Studies.

ARTICLE 2: Faculty Rights and Responsibilities.

Section 1: Faculty Rights.

The Faculty enjoy all of the rights and privileges afforded them by The College as are contained in the most recent edition of the *Faculty Handbook* approved by The Board of Visitors of The College, and the Code of Virginia as it relates to the various faculties of institutions of higher education in the Commonwealth.

Section 2: Faculty Responsibilities.

With the Dean/Director, The Faculty are jointly responsible for the tripartite mission of research, advisory service, and education. They advise the Dean/Director and conduct activities in research, advisory service, and education that enhance and support the institutional mission and the various mandates given it in the Code of Virginia.

It is recognized that individual Faculty may emphasize one element of the tripartite mission as their principal activity and commitment, but it is understood that each Faculty member will engage to some degree in all three elements of the institutional mission. In addition, tenured and tenure-eligible Faculty are expected to demonstrate a commitment to the academic and degree programs of the SMS through teaching, mentoring, and service to the academic and degree programs.

The Department Chairs are responsible for conducting annual merit reviews of Faculty in their department according to the policies, procedures and criteria approved by the Faculty. These procedures have been approved and reviewed by the Faculty, the Dean/Director, the Procedural Review Committee of the College and the Personnel Policy Committee of The College. In meeting these responsibilities, the Chair will ensure the full participation of the departmental Faculty.

ARTICLE 4: Faculty Governance.

Section 1: General Meetings of The Faculty.

1.1: Presiding Officer

The Dean/Director presides at all regular and special meetings of The Faculty. In the absence of the Dean/Director, the presiding officer is determined by the succession defined in Article 3, Sections 2 and 3.

1.2: Meeting Schedule

Regular meetings of The Faculty will be held at least twice annually in spring and fall. The spring meeting of each year will include the election of institutional committee members and representatives to College-wide committees and the William & Mary Faculty Assembly. A schedule of regular meetings of The

Faculty will be published in January of each year by the Dean/Director.

1.3: Agendas

The Faculty Council shall serve as the appropriate forum for the discussion of the concerns and interests of The Faculty both with regard to the Institute and The College. The Faculty conveys to the Faculty Council the powers to act on its behalf, and reserves the right to periodically review the operation of the Faculty Council.

The purpose of the Faculty Council is to provide an effective voice in deliberation about and establishment of policies, and to enter into a partnership of shared responsibility and cooperation among The Faculty, administration, and other members of the VIMS community and The College of William & Mary. The Faculty Council is thus a forum for ensuring adequate and productive communication between The Faculty and the Administration. The Faculty Council may not impinge on the responsibilities specifically accorded to the Academic Council (Article 4, Section 3).

2.1: Functions.

Actions of the Faculty Council may not contravene any provisions of Virginia law or The policies of The College set forth by The Board of Visitors. The Faculty Council is further governed and bound by the most recent version of the Faculty Handbook of The College as approved by the Board of Visitors. According to procedures and criteria approved by The Faculty, the Faculty Council performs such functions as may be entrusted to it by The Faculty and considers matters of concern to The Faculty, conveying The Faculty position in the form of recommendations to the Dean/Director. All other Faculty as defined above (Article 1, Section 1), including Department Chairs but excepting Emeritus, are eligible. Each Representative will represent the interests of his or her respective Department. It is the responsibility of the senior Representative of a Department (the longer serving of the two Representatives) to report to the Departmental Faculty the proceedings of the Faculty Council and other related matters. The Representatives serve as a channel through which any member of the VIMS community (Faculty, Staff, Students) may introduce matters for consideration by the Faculty Council or its Committees.

Alternates may vote only when replacing an absent Representative but have voice at all meetings.

Representatives are elected for a term of three (3) years, and alternates for one (1) year. The term of office for Representatives is staggered so that approximately one-third (1/3) will be elected in a given year. Terms for Representatives from a given Department will not coincide. New members begin service on 1 July. In the event a Representative is unable to serve, the alternate fills the position for the remainder of the term and the Department elects a new alternate Representative.

The Departments reserve the right to rescind the election of a Representative or Alternate to the Faculty Council or its standing committees for habitual absence or other malfeasance and to elect a successor for the remainder of the term.

The Chair of the Academic Council shall serve as a Representative to the Faculty Council with full voice and voting rights. The Dean/Director, the Director of Research and Advisory Service and the Dean of Graduate Studies are *ex officio*, non-voting members of the Faculty Council.

Nominations from the floor will be accepted. The Vice-Chair is elected annually by the Faculty Council from among the tenured members of the Departmental Representatives to the Faculty Council at the first meeting of the Faculty Council after the new members begin service. The Secretary is elected annually by the Faculty Council from among the members of the Departmental Representatives to the Faculty Council also serves as general secretary to The Faculty (Article 4, Section 1.3).

If the Faculty Council Chair is vacated by resignation or other cause, the Vice Chair will assume the position of Chair until June 30th following the next regular Spring Faculty meeting. The Faculty shall elect a new chair for a three (3) year term at this Spring meeting. A new Vice Chair will be elected by the Faculty Council, and the Alternate from the Department represented by the former Vice Chair will assume duties as a Representative. The Department affected will elect a new Alternate.

The Chair of the Faculty Council presides at meetings of the Faculty Council. In his or her absence, the Vice Chair presides. He or she prepares and distributes notices of Faculty Council meetings to The Faculty and Administration, the agenda for Faculty Council meetings, and specific reports (as requested) on the work of the Faculty Council to The Faculty, the Dean/Director, the President, Provost, and the Board of Visitors of The College. The Chair shall report on Council business to The Faculty at regular meetings of The Faculty.

The Secretary is responsible for the taking and distribution of minutes of the Faculty Council and General Faculty meetings, and prepares and distributes notices and agendas of meetings of The Faculty.

Special meetings may be called by the Chair, by resolution of the Faculty Council, or by a petition signed by at least two of the Representatives. Meetings may be conducted electronically, including by email or computer (such as web-based) conferencing.

At the first meeting of the Faculty Council after new members begin service, a schedule for meetings shall be determined. Meeting agendas will be prepared by the Chair of the Faculty Council in consultation with the Dean/Director. The agenda is sent to The Faculty, Representatives, and the chairpersons of all Faculty Council committees at least five (5) working days before regularly scheduled meetings, or as much in advance as possible for a meeting called in an emergency. Any single Representative may require that a proposal be placed on the agenda unless otherwise specified in these bylaws.

A quorum shall consist of a simple majority of the Representatives with each department represented. An affirmative vote of a majority of the Representatives present and voting shall be necessary to adopt any motion, resolution or other action, except as specified otherwise in these Bylaws. All members of The Faculty may attend meetings of the Faculty Council without voice or vote.

As required for purposes of confidentiality, the Faculty Council may enter into closed session by a two-thirds (2/3) vote of the members present or by written request of the Dean/Director and in accordance with procedures established for meetings of the Board of Visitors of The College.

The Faculty Council may adopt Operating Rules consistent with these Bylaws to facilitate its functioning as needed.

Vacancies created by resignation or other cause will be filled for the remaining term by the represented department by departmental vote. Vacancies created by resignation or other cause of the at-large member will be filled for the remaining term by Faculty Council appointment.

At least 10 working days in advance of elections, the NEC will make written nominations for vacant elective offices of The Faculty. The NEC conducts all elections in accordance with these Bylaws and procedures and criteria established by The Faculty.

2.6.3: Other Committees.

The Faculty and the Faculty Council may establish other standing committees and special or ad hoc committees, and provide for participation in committees of The College as may be appropriate for the performance of its functions. Membership on such committees may come from The Faculty as well as the Representatives of the Faculty Council.

Membership of the committees is determined in such a manner as the Faculty Council may decide. For any or all committees the Faculty Council may elect a nominating committee or request nominations from the Representatives representing each Department. The Academic Council may establish standing academic committees, special committees, and provide for participation in the academic committees of The College as may be appropriate for the performance of its functions (see Section 3.7). The Academic Council performs such functions as are given to it by The Faculty, the Dean/Director, or the designees of the Dean/Director. It prepares and submits specific reports, as requested, on the work of the Academic Council to The Faculty, the Dean/Director, the President and Provost of the College, and the Board of Visitors of the College. The Academic Council at its discretion may call and convene meetings of The Faculty.

3.4: Composition and Structure.

The Academic Council has one Representative and one Alternate elected by The Faculty in each Department. Alternates may vote only when replacing an absent Representative but have voice at all meetings. All Faculty except the Dean/Director, the Director for Research and Advisory Services, the Dean of Graduate Studies and Emeritus are eligible to serve as Departmental Representatives to the Academic Council. The term of office for each Representative is three (3) years. The term of office for Alternates is one year. Terms of office are staggered so that roughly one-third (1/3) of the Representatives are elected annually. Representatives serve the interests of the SMS in their Department and serve as a channel through which any member of The Faculty and students may introduce matters for consideration by the Academic Council or its committees. It is the responsibility of the Representatives from each Department to disseminate or report to The Faculty of that Department the proceedings of the Academic Council and other related matters. There will be a Representative and an Alternate designated by the Graduate Student Association of the SMS to be elected annually by the GSA. The GSA determines the eligibility requirements of its Representative. The Representative of the GSA represents the interests of the SMS students. The GSA Representative shall have voice but no vote on the Academic Council.

The Dean/Director serves as a non-voting *ex officio* member of the Academic Council.

The Departments reserve the right to rescind the election of a Representative or Alternate to the Academic Council or its standing committees for habitual absence or other malfeasance and to elect a successor for the remainder of the term.

3.5: Officers, Elections, and Terms of Office

The officers of the Academic Council are the Chair and Secretary. The Chair is elected at-large by The Faculty for a term of three (3) years and must be a tenured member of The Faculty. The Chair shall serve as a Representative to the Faculty Assembly of the College. The Secretary is elected annually by the Academic Council from among the tenured members of the Representatives at the first meeting of the Academic Council after new members begin service. Elections to fill vacancies on the Academic Council will occur at departmental meetings in the spring.

The Secretary will arrange for the taking and distribution of minutes of the Academic Council meetings. If the Chair of the Academic Council is vacated through resignation or other causes, the Secretary will assume the position of Chair, and a new Secretary will be elected from among eligible members of the Academic Council to fill the unexpired term of office.

3.6: Meetings of the Academic Council.

There shall normally be monthly meetings of the Academic Council. Special meetings may be called by the Dean/Director, the Dean of Graduate Studies, the Chair, by a resolution of the Academic Council or by a petition signed by at least two of the Representatives. Meetings are open to members of The Faculty without voice or vote. The Chair presides at all meetings of the Academic Council. The Chair and the Dean of Graduate Studies shall prepare the agenda for each meeting. Any single Representative may require that a proposal be placed on the agenda unless otherwise specified in these bylaws. The agenda shall be circulated to the Representatives and Alternates at least five (5) working days before each regularly scheduled meeting and a copy of the agenda shall be posted where it is available to The Faculty. Agenda for special meetings shall be circulated as much in advance as feasible. The Secretary shall see that events at each meeting, regular or special, are recorded and shall circulate a draft of the minutes to members within five (5) working days. Following approval, the corrected minutes shall be provided to each Representative who shall then inform his or her department Faculty by appropriate posting.

A quorum shall consist of a simple majority of the Representatives. An affirmative vote of a majority of the members present and voting shall be necessary to adopt any motion, resolution, or other action.

As required for purposes of confidentiality, the Academic Council may enter into closed session by a two-thirds (2/3) vote of the members, or by request of the Dean/Director and in accordance with procedures established for meetings of the Board of Visitors of the College.

3.7: Standing Committees of the Academic Council.

Standing committees may include as members, representatives of the Academic Council or any Faculty member as well as student representatives. Membership is determined in such a manner as the Academic Council may decide or as specified by these bylaws. When the Academic Council is to vote on the membership of any committee, nominations from the floor will be allowed.

The standing committees of the Academic Council are the standing committees of The Faculty. They may include, but are not necessarily limited to, committees on Admissions and Student Financial Aid, Educational Policy, Student Research, and Academic Status and Degrees. The Academic Council will develop the charge and function of each committee to ensure equal representation among Departments. These committees shall develop policies and procedures for their operation that are approved The Faculty.

ARTICLE 5: Parliamentary Authority

The current edition of Robert's Rules of Order, except when inconsistent with these bylaws, shall govern meetings of The Faculty, the Councils, and committees.

ARTICLE 6: Amendments to the Bylaws

Section 1: Procedures

Amendments may be proposed by two or more Representatives of the Faculty Council or Academic Council or by two or more Faculty members with a petition signed by at least one third (1/3) of the members of a department. The proposed amendment(s) shall be submitted to the Faculty Council for consideration and subsequent forwarding to the Academic Council for consideration. Amendments approved by a majority vote of both Councils and in consultation with the Dean/Director shall then be placed on the agenda for the next meeting of The Faculty. Amendments also may be submitted directly to Faculty referendum without approval by either Council by means of a written petition signed by at least one third (1/3) of The Faculty.

President James McNeer advised that Director of Institutional Advancement LeAnn Binger was in Spain and introduced her assistant Jacqueline Harrison, who distributed an update on the progress of the Capital Campaign. President McNeer noted that the total to date was \$4,414,496.75 and advised that they hope to conclude the campaign for the end of the calendar year. The President reported that 14 donors had made an addition to their original commitment during this last part of the campaign, two fund raising events were planned, commercials were airing on both public television and cable channels and alumni were speaking at various events. He again thanked Sean Pieri for his advice and support during this process.

The President advised that Commencement would be held on Friday, May 15, and invitations would be going out shortly. Board member John Charles Thomas will be the speaker. President McNeer noted that the recent Phi Beta Kappa induction had honored over 40 students, the largest number to date. Plans were proceeding to break ground on the new Science and Technology Center and upcoming events included an open house for prospective students, the wind ensemble concert and international forum speakers.

President McNeer noted that applications for residential students were 40% ahead of last year and advised that William and Mary Associate Provost for Enrollment Earl Granger was again working with the Richard Bland Admission Office staff to contact those William and Mary applicants who were not selected and encourage them to consider attending Richard Bland. A brief discussion ensued.

**RICHARD BLAND COLLEGE
TUITION AND FEES FOR 2009 - 10**

Tuition and fee recommendations which follow are those the administration has agreed will meet the 2009-10 funding requirements for academic programs, residence hall operations and related programs in support of these operations. The College has factored the impact of ARRA Allocations and the requirement to "mitigate" tuition and fee increases as a result of this allocation.

Tuition and academic fees will increase an average of 2.06% for Virginia students. Total charges to residential students will increase an average of 2.52% for Virginia students. Total charges for out-of-state students will increase 2.13% for residential students, with a significant portion of that increase due to a new state requirement to charge out-of-state students a \$10 per credit hour capital fee.

RESOLVED, upon recommendation of the President, the Board of Visitors of the College of William & Mary in Virginia approves tuition, fee and rent charges for Richard Bland College for 2009-10.

Also in attendance were Assistant Attorney General Deborah Love, Staff Liaison Ann Repeta; Richard Bland College President James B. McNeer, Provost Vernon R. Lindquist, Dean Russell E. Whitaker, Jr.; William and Mary Dean of University Libraries Connie K. McCarthy, Dean Virginia L. McLaughlin, Dean John Wells and members of the Faculty Liaison Committee.

At 9:38 a.m. the Board convened as a committee of the whole. Mr. Trammell presided as chair of the **Committee on Strategic Initiatives**. Mr. Trammell, while noting that great progress has been made, advised that only the framework of the strategic plan has been developed and work would continue over the summer. Mr. Trammell thanked Provost Geoff Feiss and Vice President Jim Golden for their leadership. Noting from the Board perspective that Ms. Brashear had been invaluable to the whole process, Mr. Trammell called on her as chair of the Strategic Initiatives Committee.

Ms. Brashear commented on the framework contained in the booklet distributed with the agenda, noting that the Board would be asked to approve the framework, not the full plan and the detailed action steps would be discussed in September.

Vice President for Strategic Initiatives James Golden and Provost Geoff Feiss provided an update on the strategic planning process, and Ms. Brashear facilitated discussion of the vision, challenges, goals, highlights of the objectives, ten priority actions, and the implementation process. The Board preferred to refer to the document as the Strategic Planning "Framework" rather than "Plan," to recognize both the fluidity of the current document but also the dynamic nature of the strategic planning process itself. A general discussion ensued, followed by the outlining of the next steps. It was noted that this was the core strategic framework from which will develop communications documents.

The discussion made it clear that the approval of the resolution was not meant to cast any of the elements of the plan in stone, but rather view the plan as a working document that will be fleshed out in more detail in the implementation process. The Board members recognized that some elements of the structure and wording would change as the implementation plan developed and provided recommendations for how the public version might be presented on the website.

Mr. Trammell moved adoption of revised **Resolution 36**, Celebrating Tradition & Forging Change: A Plan for William & Mary. Motion was seconded by Mr. Thomas and approved by voice vote (**Resolution 36(R)** is appended).

President McNeer advised that Judge John Charles Thomas would be the Commencement speaker on May 15. The President provided an update on the capital campaign, noted the loss of \$600,000 in operating budget cuts from the state and the receipt of \$344,000 in stimulus funding, which will help to offset the cuts. The science and technology facility ground-breaking was held with a fall 2010 opening anticipated. The open house for prospective students and their families was planned for tomorrow, with a large number from Northern Virginia and Tidewater. The Rector thanked Mr. Trammell for his work as well.

In his last report to the Board, Provost P. Geoffrey Feiss expressed his thanks for their friendship, hospitality and generosity over the years, and for the opportunity to work with them. Noting the enormous amount of work done on the strategic plan by the faculty, he has felt a spirit of investment and strong sense it is a worthwhile thing to do on behalf of the institution. It has managed to create a great deal of trust between faculty, staff and Board members and a great sense that it is a joint effort. The Provost cautioned that implementation will be harder and will involve a lot of time and require leadership from the Faculty Assembly, the new Provost and the Deans; the process is just getting started.

The Provost advised that work has already begun on the next Faculty Survey, noting that Professor Katherine Kulick is still coordinating that effort. The Faculty Assembly plans to have it done early so the Board may have the report early in the year. This survey will be much more automated but not less challenging. As this is the seventh survey, the data will be useful. The Provost and Professor Kulick responded to several questions.

Ms. Poston reported for the Committee on Academic Affairs, noting that the committee had asked Provost Feiss for his three wishes for the College, which were: (1) a good faculty, (2) continue devotion to liberal arts focus, and (3) continue commitment to diversity in its broadest sense. Ms. Poston noted that the report from the Faculty Liaison Committee demonstrated a major commitment to the strategic planning process.

Monson, Department of Modern Languages and Literatures; **Resolution 31**, Retirement of Joyce VanTassel-Baska, School of Education; and **Resolution 32**, Retirement of Stewart A. Ware, Department of Biology. Motion was seconded by Mr. Wolf and approved by voice vote.

Ms. Poston called attention to Resolution 21, The Lemon Project: A Journey of Reconciliation. This is an interdisciplinary project and a great opportunity for further collaboration with Colonial Williamsburg, for which she thanked Colin Campbell. It is similar to the Brown University example and an effort to engage the campus, Williamsburg and the Hampton Roads area in an effort to learn and understand. This is a long term and important project.

Ms. Poston asked the Secretary to read **Resolution 23**, Retirement of P. Geoffrey Feiss, Department of Geology, into the record. Upon conclusion, Ms. Poston moved adoption of Resolution 23; motion was seconded by Mr. Wolf and approved by voice vote with a round of applause from the Board.

Mr. Powell reported for the Executive Committee, and moved the adoption of the report of the Committee given in Closed Session to formally approve the awarding of the following honorary degrees at Commencement:

Tom Brokaw – Doctor of Humane Letters (L.H.D.)
Sherman Cohen – Doctor of Humane Letters (L.H.D.)
Linda Lavin – Doctor of Arts (Arts. D.)

Motion was seconded by Ms. Ukrop and approved by voice vote.

There was no old business.

Before moving to new business, Mr. Powell commented on his two terms as Rector and announced that he did not plan to seek re-appointment when his term ends in June. Noting that this had been a labor of love, Mr. Powell expressed his confidence that the Board and the College would continue to be well led by the new officers soon to be elected. A long and enthusiastic round of applause from the Board and guests followed the conclusion of his remarks.

Ms. Ukrop announced that this would be her last Board meeting, inasmuch as she had joined the Board with Mr. Powell seven years ago, served two terms and did not plan to seek re-appointment when her term ends in June. A long and enthusiastic round of applause from the Board and guests also followed her announcement.

Under new business, Mr. Thomas reported that, pursuant to the Bylaws, the Nominating Committee had met and recommended the following individuals to serve in the offices noted for the 2009-2011 term:

Rector – Henry C. Wolf
Vice Rector – John W. Gerdeman
Secretary – Janet M. Brashear

Mr. Thomas placed all three names in nomination and asked for any other nominations from the floor. Hearing none, Ms. Poston moved that nominations be closed. Motion was seconded by Ms. Mathews and approved by voice vote. Mr. Thomas asked for a motion to adopt the slate as presented. Motion was made by Mr. Powell, seconded by Mr. Banks and approved by voice vote. A round of applause was offered by the Board.

The Rector thanked Valerie Hopkins and Landon Reidmiller for serving as the student representatives from William and Mary and Richard Bland and offered congratulations to the incoming William and Mary Student Assembly President Sarah Rojas and incoming Student Assembly Vice President Ryan Ruzic, noting that Sarah will join the Board as the William and Mary student representative after Commencement. A Richard Bland representative will be

appointed following the recommendation of President McNeer.

The Rector announced the re-appointment of Katherine Kulick and Alexandra Duckworth as faculty representatives for 2009-2010.

The Rector thanked Ann Repeta for serving as the first William and Mary staff liaison and advised that new staff liaison would be appointed.

The Rector then moved that the Board of Visitors convene in Closed Session for the purpose of discussing personnel actions involving specific college employees, as provided for in Section 2.2-3711.A. 1. of the Code of Virginia. Motion was seconded by Ms. Ukrop and approved by voice vote. The Board went into executive session at 12:45 p.m.

The Board reconvened in open session at 12:55 p.m. Rector reviewed topic discussed during closed session for benefit of observers, then moved adoption of **Resolution** certifying closed session was held in compliance with Freedom of Information Act. Motion was seconded by Ms. Ukrop and approved by roll call vote of the Board members conducted by Secretary to the Board Michael Fox. (Certification **Resolution** is appended.)

There being no further business, the Board adjourned at 12:56 p.m.

**CELEBRATING TRADITION & FORGING CHANGE:
A PLAN FOR WILLIAM & MARY**

At the direction of President W. Taylor Reveley III, a new strategic planning process was launched in mid-2008. Under the direction of co-chairs Provost P. Geoffrey Feiss and Vice President for Strategic Initiatives James R. Golden, the process was envisioned to produce a five-year strategic plan, updated annually each spring, through an open, inclusive process. The Plan focuses on identifying “grand challenges” of greatest importance to the future of the university. It will be directly linked to the annual budgeting process. The implementation of the Plan will include assignment of responsibility for each objective, clear metrics, and open reports of performance against objectives. As a result, planning and financial processes will become more transparent and more directly focused on strategic priorities.

Initial steps that will be undertaken immediately include a comprehensive review of the curriculum, including course loads and student-faculty ratios; incorporating and improving technology options and collaborations; increasing housing options to highlight William & Mary as a close-knit, diverse and residential campus community; underscoring the importance of a lifelong William & Mary experience through finding new ways to reach out to and connect with alumni and friends of the College; significantly increasing research funding over the next decade; looking for entrepreneurial opportunities and more efficient ways to operate to increase revenue and reduce costs; and completing a systematic review of communications and marketing at William & Mary to effectively tell the College story to the world.

The strategic planning framework (attached) outlines the next steps in developing the strategic plan, entitled Celebrating Tradition & Forging Change: A Plan for William & Mary.

BE IT RESOLVED, That upon recommendation of the President, the Board of Visitors of the College of William and Mary hereby approves the proposed strategic planning framework, vision, challenges, goals, objectives and the implementation process; and

BE IT FURTHER RESOLVED, That the Board commends the work of the entire College community in this effort, but especially the co-chairs of the Planning Steering Committee, Provost P. Geoffrey Feiss and Vice President for Strategic Initiatives James R. Golden.

Executive Summary

President Taylor Reveley launched a new strategic planning process in academic year 2008-2009. The process will produce a five-year strategic plan (Plan), updated annually each spring, through an open, inclusive process. This is the first of those Plans. Each year, the Plan will focus on “grand challenges” of greatest importance to the future of the university. The implementation of the Plan will include assignment of responsibility for each objective, development of specific metrics to track outcomes, and open reports of performance against objectives. As a result, our planning and financial processes will become more transparent and more directly focused on strategic priorities.

The centerpiece of our strategy over the next five years is the fact that William & Mary has clearly defined itself as a “liberal arts university.” All major actions and decisions moving forward will build from our ability to combine the very best elements of a liberal arts college and a research university. W&M’s ability to balance those two aspects make us a great university. Our niche is characterized by effectively integrating teaching and scholarship, supporting interdisciplinary and international programs, and recognizing and promoting the kind of faculty-student interaction that distinguishes W&M as being among the very best.

Executive Summary

This commitment to academic excellence and to our niche as an outstanding liberal arts university is central to our strategy. All of our other aspirations flow from that commitment. We recognize the insight and excellence that come with inclusiveness, and we are committed to building a welcoming and supportive university. We will work to strengthen our community and we will focus on W&M as a lifelong experience. Our strategy recognizes that we need a new financial model to fund adequately our exceptional liberal arts university and to build a solid foundation for the future. We will develop a new financial model that is consistent with our aspirations.

Our Vision

Historic William & Mary is a liberal arts university of compelling academic distinction -- one with interdisciplinary study, international focus, and emphasis on faculty-student research.

Our students come wanting to change the world and they leave with the tools to do it.

COLLEGE OF WILLIAM AND MARY
APPOINTMENT OF INVESTMENT MANAGERS

At the November 19, 2008 meeting of the Committee on Financial Affairs, Wachovia Securities, financial advisor to the Board of Visitors for investment of private funds, recommended that the Board consider replacing its U.S. mid-cap value and international equity fund managers. This recommendation resulted from Wachovia's evaluation of the performance of the Board's existing managers in these areas relative to other manager options. As a result, the Committee authorized Wachovia Securities to issue a request for proposals (RFP) in each of these areas.

On April 16, 2009, Wachovia Securities presented the results of the RFP process, recommending that the Board replace its current U.S. mid-cap value and international equity fund managers with Artisan Partners LP and Artio Global Management, respectively. The Committee on Financial Affairs concurred with this recommendation.

THEREFORE, BE IT RESOLVED that the Board of Visitors of the College of William and Mary in Virginia accepts the recommendation of the Committee on Financial Affairs that its current U.S. mid-cap value and international equity fund managers be replaced and that Artisan Partners LP be retained as the College's U.S. mid-cap value manager and Artio Global Management be retained as the College's international equity fund manager.

**RICHARD BLAND COLLEGE
TUITION AND FEES FOR 2009 - 10**

Tuition and fee recommendations which follow are those the administration has agreed will meet the 2009-10 funding requirements for academic programs, residence hall operations and related programs in support of these operations. The College has factored the impact of ARRA Allocations and the requirement to "mitigate" tuition and fee increases as a result of this allocation. Tuition and academic fees will increase an average of 2.06% for Virginia students. Total charges to residential students will increase an average of 2.52% for Virginia students. Total charges for out-of-state students will increase 2.13% for residential students, with a significant portion of that increase due to a new state requirement to charge out-of-state students a \$10 per credit hour capital fee.

RESOLVED, upon recommendation of the President, the Board of Visitors of the College of William & Mary in Virginia approves tuition, fee and rent charges for Richard Bland College for 2009-10.

**COLLEGE OF WILLIAM AND MARY

COLLEGE OF WILLIAM AND MARY

FY 2010-12 OPERATING BUDGET REQUESTS

Using guidance from the Governor's Office, the Secretary of Education, and the State Department of Planning and Budget, the College of William and Mary has developed operating budget requests for consideration by the Governor as part of the Commonwealth's 2010-12 budget development process.

The initial step in the Commonwealth's budget development process was the Spring 2009 submission of a six year capital outlay plan by each agency and institution. This plan continues to be under review by Commonwealth of Virginia agencies as the Governor works to finalize his 2010-12 budget recommendations. Given the state's overall revenue position, funding of new capital outlay projects will likely depend on its ability to issue additional long-term debt while maintaining its AAA bond rating.

Currently, agencies and institutions are working with the Department of Planning and Budget to develop base budgets that accurately reflect budget actions taken by the Governor and General Assembly during the 2008-10 biennium. At this point we expect that some or all of the budget reductions imposed on the College for FY 2010 will become base budget reductions for the 2010-12 biennium. FY 2012 must also address the loss of federal stimulus funds currently providing partial support for a variety of state programs and activities.

Given the Commonwealth's revenue situation, operating budget requests are limited in number and scope, addressing areas where the College is likely to allocate funds over the next two years. While consistent with the current strategic planning effort, these requests do not attempt to address all of the priorities that will emerge from strategic planning.

Specific requests are not included for items typically considered "state-wide" issues by the Commonwealth of Virginia. These items include faculty and staff salaries, undergraduate student financial aid, and continuation of the Higher Education Equipment Trust Fund program.

THEREFORE, BE IT RESOLVED, That the Board of Visitors of the College of William and Mary approves the administration's recommended operating budget requests for the College for submission to the Commonwealth as part of the 2010-12 budget development process.

COLLEGE OF WILLIAM AND MARY**FY 2010-12 OPERATING BUDGET REQUESTS**

- **Facilities Support**

<u>FY 2010-11</u>	<u>FY 2011-12</u>
\$1,757,800 GF	\$2,044,900 GF
\$ 89,600 NGF	\$ 110,800 NGF
10.00 FTE	10.00 FTE

This request recognizes the fiscal impact of bringing new facilities on-line over the course of the 2010-12 biennium. Over this period the School of Education (July, 2010), the Sherman and Gloria Cohen Career Center (November, 2010), the Small Hall Addition (February, 2011), and the Power Plant Addition (September, 2010) will come on-line, providing an additional 153,000 square feet of space to support the educational programs of the College.

- **Graduate Student Financial Aid**

<u>FY 2010-11</u>	<u>FY 2011-12</u>
\$633,000 GF	\$1,266,000 GF

The 2007 study of the graduate financial aid gap across the College's various graduate programs documented a significant funding shortfall based on 1) non-competitive stipends across the doctoral and masters programs in Arts and Sciences and Education, 2) the need to provide support for additional graduate students in programs that have reduced the number of students receiving awards in order to keep stipend levels at anywhere near a competitive level, and 3) the need to support a "critical mass" of graduate students in certain programs. The College's competitive position is being further eroded as other institutions cover all or part of the cost of health insurance required by graduate students. This proposal would increase both the level of support per student and the number of students in doctoral programs across campus.

- **Utilities and Other Contract Related
Cost Increases**

<u>FY 2010-11</u>	<u>FY 2011-12</u>
\$527,000 GF	\$1,100,000 GF

This proposal requests state support for anticipated cost increases in utilities, maintenance contracts, leases, and other items across the university. While the College continues to make progress in energy management, rate increases result in additional expense for the College.

VIRGINIA INSTITUTE OF MARINE SCIENCE
FY 2010-12 OPERATING BUDGET REQUESTS

The Virginia Institute of Marine Science has developed operating budget requests as part of the Commonwealth's budget development process. This submission is developed consistent with operating and capital amendment requests previously approved by the Board of Visitors, and the most pressing needs of the Institute and the Commonwealth.

THEREFORE, BE IT RESOLVED, that the Board of Visitors of the College of William and Mary in Virginia approves the following operating budget requests for the Virginia Institute of Marine Science for submission to the Commonwealth as part of the 2010-12 budget development process.

VIRGINIA INSTITUTE OF MARINE SCIENCE

FY 2010-12 OPERATING BUDGET REQUESTS

	<u>FY 2010-11</u>	<u>FY 2011-12</u>
Wetlands Advisory Program	\$300,000 GF 4.0 FTE	\$300,000 GF 4.0 FTE

This proposal requests the restoration of full state support for the Institute's Center for Coastal Resources Managements Wetlands Advisory Program. Originally supported with base funding to VIMS in 1972, this program has recently been supported with a mix of federal and state funds. This program currently provides extensive technical advice to Virginia's local citizen wetlands boards and VMRC as they make decisions about permit applications and their impacts on vital natural resources.

Base Operating Support	\$450,000 GF 3.0 FTE	\$450,000 GF 3.0 FTE
-------------------------------	-------------------------	-------------------------

This proposal requests base operating support for routine costs and rate increases in utilities and library materials, service contracts for high tech scientific and computing equipment, and plant operations as well as faculty and staff support in selected program areas mandated by the *Code of Virginia*.

Graduate Student Financial Aid	\$300,000 GF	\$300,000 GF
---------------------------------------	--------------	--------------

To maintain the ability to compete with other top graduate programs for the best students, VIMS needs to maintain the number and level of fellowships offered each year to incoming students. While VIMS has had significant success in securing federal funds for its various activities, many times the granting agency requires a match in the form of tuition support for graduate students. The allocation of additional graduate aid funds will allow VIMS to continue to leverage these funds. This initiative requests funds to maintain a competitive graduate program.

Fisheries Stock Assessment	\$650,000 GF 6.0 FTE	\$650,000 GF 6.0 FTE
-----------------------------------	-------------------------	-------------------------

This proposal requests state support for the monitoring of many fish populations in the lower Chesapeake Bay and its tributaries. Originally supported with base funding to VIMS and then VMRC, this 55-year-old stock assessment program has been recently supported with a combination of one-time federal and state fishing license funds. The loss of this monthly trawl survey for juvenile fish populations will make it hard for Virginia to meet its federal requirement to provide fish population abundance information to the federal regulatory entities such as the Chesapeake Bay Stock Assessment Committee and the Atlantic States Fisheries Commission, which set commercial and recreational catch limits.

**VIRGINIA INSTITUTE OF MARINE SCIENCE
DEMOLITION OF MULTIPLE STRUCTURES**

WHEREAS, the Virginia Institute of Marine Science requests Board of Visitors' approval to demolish six buildings, the Davis Storage Shed I, Davis Storage Shed II, Oyster House, Oyster House Annex, Salt Water Pump House I, and Phillips House, for the construction of the new Eastern Shore Seawater Laboratory. Demolition of an additional six buildings, Franklin Hall, White House, Stevenson House, Raleigh House, Lukens House, and Geddings House, is requested to allow for future development on the Gloucester Point Campus. All of these buildings are in very poor condition and not suitable for renovation and reuse.

WHEREAS, the College and the Commonwealth entered into a 2006 Management Agreement (the "Agreement"), governed by the restructured Higher Education Financial and Administrative Operations Act of 2005, Chapter 4.10 of the Title 23 of the *Code of Virginia*; and

WHEREAS, the Agreement was renewed in 2009; and

WHEREAS the Agreement authorizes the College's Board of Visitors to approve demolition of buildings subject to review by the Art and Architectural Review Board and the Department of Historic Resources; and

WHEREAS, the Virginia Institute of Marine Science will follow established policies and procedures for each demolition;

THEREFORE, BE IT RESOLVED, by the Rector and the Board of Visitors of the College of William and Mary in Virginia, that approval is given to the Virginia Institute of Marine Science to demolish Davis Storage Shed I (268-00B80), Davis Storage Shed II (268-00B81), Oyster House (268-00B82), Oyster House Annex (268-00B83), Salt Water Pump House I (268-00B84), Phillips House (268-00B96), Franklin Hall (268-00B18), White House (268-00B32), Stevenson House (268-00B28), Raleigh House (268-00B25), Lukens House (268-00B129), and Geddings House (268-00B111) in accordance with all authorities, policies, and procedures in force and necessary to accomplish same; and that

FURTHER RESOLVED, that the Vice President of Administration, the Associate Vice President for Facilities Management, and the College Building Official are each authorized to execute any and all documents pertaining to the removal of said buildings.

**RESOLUTION OF THE BOARD OF VISITORS OF
THE COLLEGE OF WILLIAM AND MARY
POOLED 9(D) BOND PROJECTS: IMPROVE ATHLETIC FACILITIES,

WHEREAS, pursuant to Chapter 3.2, Title 23 of the Code of Virginia of 1950, as amended (the "Act"), the General Assembly of Virginia has authorized the Virginia College Building Authority (the "Authority") to develop a pooled bond program (the "Program") to purchase bonds and other debt instruments issued by public institutions of higher education in the Commonwealth of Virginia (the "Institutions") to finance or refinance the construction of projects of capital improvement specifically included in a bill passed by a majority of those elected to each house of the General Assembly of Virginia (the "Projects");

WHEREAS, the Authority intends to issue from time to time under the Program its Educational Facilities Revenue Bonds (Public Higher Education Financing Program) (the "Bonds") to finance the purchase of notes and other debt instruments issued by the Institutions to finance or refinance the Projects, all in the furtherance of the purposes of the Act and the Program;

WHEREAS, the Board of Visitors of **THE COLLEGE OF WILLIAM AND MARY** (the "Board") may from time to time wish to finance or refinance Projects of **THE COLLEGE OF WILLIAM AND MARY** (the "Participating Institution") through the Program;

WHEREAS, the Participating Institution now proposes to sell to the Authority the Participating Institution's Note (the "2009 Note") to be issued under a Loan Agreement (the "2009 Loan Agreement") to finance or refinance from all or a portion of the proceeds of certain new money Bonds issued by the Authority in 2009, with appropriate series designation depending on their issuance date, (the "2009 Bonds") a portion of the costs of construction

and/or improvements of the **Improve Athletic Facilities (204-17553); Construct/Replace Cooling Plant and Utility Improvements, Phase 2 (204-17651)** ([collectively,] the "2009 Project"); which has been authorized for bond financing by the General Assembly; and

WHEREAS, it is the desire of the Board to delegate to such Authorized Officers (as hereinafter defined) of the Participating Institution the authority to approve, on behalf of the Board, the forms of the 2009 Loan Agreement and the 2009 Note and, similarly, to authorize such Authorized Officers of the Participating Institution to execute, deliver and issue in the name of and on behalf of the Participating Institution, the 2009 Loan Agreement, the 2009 Note and any and all documents necessary or desirable to effectuate the financing or refinancing of all or a portion of the costs of the 2009 Project through the Program with the Authority and to facilitate the purchase of the 2009 Note by the Authority.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF THE PARTICIPATING INSTITUTION:

Section 1. The 2009 Project is hereby designated a Project to be undertaken and financed or refinanced by the Authority and, accordingly, the **President and Vice President for Finance** of the Participating Institution (collectively, the "Authorized Officers"), are each hereby delegated and invested with full power and authority to approve the forms of the 2009 Loan Agreement and 2009 Note, and any pledge to the payment of the 2009 Note of the Participating Institution's total gross university sponsored overhead, unrestricted endowment income, tuition and fees, indirect cost recoveries, auxiliary enterprise revenues, general and nongeneral fund appropriations and other revenues not required by law or by previous binding contract to be devoted to some other purpose, restricted by a gift instrument for another purpose or excluded from such pledge as provided in the 2009 Loan Agreement, and such approval is hereby authorized, subject to the provisions of Section 3 hereof.

Section 2. Subject to the provisions of Section 3 hereof, the Authorized Officers are each hereby individually delegated and invested with full power and authority to execute, deliver and issue, on behalf of the Board, (a) the 2009 Loan Agreement and the 2009 Note with the approval of such documents in accordance with Section 1 hereof by any such officer evidenced conclusively by the execution and delivery of the 2009 Loan Agreement and 2009 Note, respectively, and (b) any and all other documents, instruments or certificates as may be deemed necessary or desirable to consummate the financing or refinancing of all or a portion of the costs of the 2009 Project through the Program, the construction of the 2009 Project and the Participating Institution's participation in the Program, and to further carry out the purposes and intent of this Resolution. The Authorized Officers are directed to take such steps and deliver such certificates prior to the delivery of the 2009 Note as may be required under existing obligations of the Participating Institution, including bond resolutions relating to the Participating Institution's outstanding general revenue pledge bonds.

following parameters: (a) the principal amount to be paid under the 2009 Note allocable to each Project constituting part of the 2009 Project, together with the principal amount of any other indebtedness with respect to such Project, shall not be greater than the amount authorized for such Project by the General Assembly of Virginia, plus amounts needed to fund issuance costs and other financing expenses, including capitalized interest, or any other increase permitted by law, (b) the aggregate principal amount of the 2009 Note shall in no event exceed \$16,355,000, as the same may be so increased, (c) the interest rate payable under the 2009 Note shall not exceed a "true" or "Canadian" interest cost more than 50 basis points higher than the interest rate for "AA" rated securities with comparable maturities, as reported by Delphis Hanover, or another comparable service or index, on the date that the interest rates on the 2009 Note are determined, taking into account original issue discount or premium, if any, (d) the weighted average maturity of the principal payments due under the 2009 Note shall not be in excess of 20 years, (e) the last principal payment date under the 2009 Note shall not extend beyond the period of the reasonably expected average weighted economic life of the 2009 Project, and (f) subject to the foregoing, the actual amount, interest rates, maturities, and date of the 2009 Note shall be approved by an Authorized Officer, which approval will be evidenced by the execution of the 2009 Note.

Section 4. The Board acknowledges, on behalf of the Participating Institution, that if the Participating Institution fails to make any payments of debt service due under any Loan Agreement or Note, including the 2009 Loan Agreement and the 2009 Note, the Program authorizes the State Comptroller to charge against the appropriations available to the Participating Institution all future payments of debt service on that Loan Agreement and Note when due and payable and to make such payments to the Authority or its designee, so as to ensure that no future default will occur on such Loan Agreement or Note.

Section 5. The Board agrees that if the Authority determines that the Participating Institution is an "obligated person" under Rule 15c2-12 of the Securities and Exchange Commission with respect to any issue of Bonds, the Participating Institution will enter into a continuing disclosure undertaking in form and substance reasonably satisfactory to the Authority and the Participating Institution and will comply with the provisions and disclosure obligations contained therein.

Section 6. This resolution shall take effect immediately upon its adoption.

COLLEGE OF WILLIAM AND MARY
CONFIRMATION OF ACADEMIC TENURE

The *Faculty Handbook* (Section III.B.1.a.) defines an appointment with academic tenure as follows:

The College accepts the principle of tenure and adheres to it as a moral, professional, and legal obligation. Tenured faculty members are those persons who have been affirmatively confirmed in such status by action of the Board of Visitors on recommendation of the President subsequent to appropriate peer and administrative review. An appointment with tenure may be terminated by the College only for adequate cause.

The *Handbook* (Section III.B.2.) further states:

Subject to the approval of the Board of Visitors, tenure will be granted to a full-time faculty member who has attained the rank of assistant professor or higher upon the member's continuation beyond seven years (including authorized leaves of absence except as discussed in Section III.F.7.) as a full-time faculty member of any accredited institution of higher learning or in a professional position relevant to the faculty member's academic appointment at the College; provided that if part of the seven years is represented by service other than at the College, the faculty member may be required to serve a probationary period of as much as four years at the College immediately before tenure is granted, even if the total full-time service thereby exceeds seven years....

The *Handbook* stipulates the procedures which must be followed at the departmental, faculty, and administrative levels in the development of recommendations for the confirmation of a status of academic tenure. Recommendations so developed are submitted to the President, whose "decisions are final subject to approving action by the Board of Visitors."

Through these procedures the following member of the Faculty of the College is now recommended for confirmation of academic tenure.

BE IT RESOLVED, The Board of Visitors of the College of William and Mary approves the following member of the Faculty be awarded tenure, effective 1 July 2009.

ARTICLE 1: Faculty Definitions.***Section 1: The Virginia Institute of Marine Science Faculty.***

There exists a Faculty of the Virginia Institute of Marine Science ("VIMS"), within The College of William & Mary ("The College"), known hereafter as "The Faculty". Members of The Faculty hold appointments as Faculty of The College of William & Mary in the Virginia Institute of Marine Science. These appointments require approval by the Board of Visitors of The College. It is the responsibility of The Faculty to promote the welfare of the institution, to assist the Dean and Director (hereafter "Dean/Director") in the successful pursuit of quality and excellence in the institution's tripartite mission of research, education, and advisory service, and to promote the creation, maintenance, and protection of a University environment conducive to the growth of scholarship, creativity, learning, teaching, research, service, and respect for human dignity and rights. There exists within the Virginia Institute of Marine Science an academic program conferring graduate degrees in marine science in The College of William & Mary, known as The School of Marine Science (SMS). The mission of the SMS is higher education and, in particular, graduate education in the marine sciences. The Dean/Director is also the Dean of the SMS. Faculty appointments include tenure-eligible and tenured Faculty, as well as tenure ineligible Faculty in any series with equivalent rank and qualifications that has been duly approved by the Board of Visitors of The College. Faculty holding the title "Emeritus" are non-voting members of The Faculty. Tenured and tenure-eligible Faculty have the principal responsibility for the academic programs of the SMS.

The Faculty consists of those individuals duly appointed through approved policies and procedures for search and appointment to The Faculty. The Faculty is organized administratively in Departments that reflect the interdisciplinary nature of marine science, and support the tripartite mission of VIMS as defined in the Code of the Commonwealth of Virginia, these Bylaws, The Faculty Handbook of The College, and the Bylaws of the Board of Visitors of The College of William & Mary. The Department organization is determined by the Dean/Director in consultation with The Faculty. Chairpersons for each Department are elected by the Department Faculty and appointed by the Dean/Director. The Faculty reports through the designated Department Chairs to the Dean/Director. The Chair reports regarding research matters through the Director for Research and Advisory Services, and regarding educational matters relating to the academic and graduate degree programs through the Dean of Graduate Studies. To insure uniformity in the academic program across departments, an Academic Council has been established by the Faculty. The Academic Council advises the Dean/Director on matters related to the academic and degree programs and reports to the Faculty Council at its regular meetings.

The Faculty participates in generally accepted forms of governance found at institutions of higher learning in the Commonwealth of Virginia and this country. Faculty governance is

accomplished through a representative body known as the Faculty Council, whose members receive their authority from The Faculty. The Council's elected Representatives consult with and advise the Dean/Director on matters of concern to The Faculty and the operations of VIMS. The Faculty Council also responds to specific requests for information and advice made by the Dean/Director, the Director for Research and Advisory Services, or the Dean of Graduate Studies.

ARTICLE 2: Faculty Rights and Responsibilities.

Section 1: Faculty Rights.

The Faculty enjoy all of the rights and privileges afforded them by The College as are contained in the most recent edition of the *Faculty Handbook* approved by The Board of Visitors of The College, and the Code of Virginia as it relates to the various faculties of institutions of higher education in the Commonwealth.

Section 2: Faculty Responsibilities.

With the Dean/Director, The Faculty are jointly responsible for the tripartite mission of research, advisory service, and education. They advise the Dean/Director and conduct activities in research, advisory service, and education that enhance and support the institutional mission and the various mandates given it in the Code of Virginia.

It is recognized that individual Faculty may emphasize one element of the tripartite mission as their principal activity and commitment, but it is understood that each Faculty member will engage to some degree in all three elements of the institutional mission. In addition, tenured and tenure-eligible Faculty are expected to demonstrate a commitment to the academic and degree programs of the SMS through teaching, mentoring, and service to the academic and degree programs.

ARTICLE 3: Administrative Officers of the Faculty.

Section 1: The Director and the Dean (Dean/Director).

The Dean/Director is the chief administrative officer of VIMS and SMS, which are under the administrative, and management control of the Board of Visitors of The College. The Dean/Director must meet the requirements for appointment to The Faculty and will hold an appointment within an appropriate department of VIMS. He or she is nominated by the President of The College and appointed by the Board of Visitors of The College for an indefinite term. For matters relating to the statutory responsibilities of

VIMS, the Dean/Director reports to the President of The College. For matters relating to the affairs of the SMS, the Dean/Director reports

to the Provost of The College. The Dean/Director is responsible for the development and administration of the programs of research, advisory service, and education, for budgetary planning and the allocation of funds, for assignment of space and facilities, for Faculty and staff appointments and development, and for all other matters related to the missions and mandates of VIMS. The Dean/Director is also responsible for the instructional programs in marine science, for scheduling of classes and examinations, for the assignment of space related to the instructional program, and for all other matters related to the curriculum, students, and Faculty. The Dean/Director is assisted by the Director for Research and Advisory Services, the Dean of Graduate Studies, and the Departmental Chairs.

Section 2: Director for Research and Advisory Services.

The Director for Research and Advisory Services assists the Dean/Director in the administrative duties of VIMS and serves as the senior administrative officer for the research, advisory service, missions and mandates of VIMS under the Dean/Director. The Director for Research and Advisory Services must be tenured and will hold an appointment within an appropriate Department of VIMS. He or she is nominated by the Dean/Director and serves at the Dean/Director's discretion. This position may be filled from among The Faculty or from outside the institution, in which case the search will be in accordance with policies and procedures established for searches in consultation between the Dean/Director and the Faculty Council. The appointment requires approval by the President and the Board of Visitors of The College. He or she administers the affairs of VIMS during the temporary absence of the Dean/Director. The Director for Research and Advisory Services consults with and works with the Dean of Graduate Studies in order to ensure close coordination of the programs of VIMS and the instructional programs of the SMS. The Chairs of the Departments report to the Director for Research and Advisory Services on all matters concerning the missions and mandates of VIMS and assist in their execution.

Section 3: Dean of Graduate Studies.

The Dean of Graduate Studies assists the Dean/Director in the administrative duties of the academic programs, and serves as the senior Faculty member and principal administrative officer of the SMS under the Dean/Director. The Dean of Graduate Studies must be tenured and will hold an appointment within an appropriate Department of VIMS. He or she is nominated by the Dean/Director and serves at the discretion of the Dean/Director. This position may be filled from among The Faculty or from outside the institution, in which case the search will be in accordance with policies and procedures

established for searches in consultation between the Dean/Director and the Faculty Council. The appointment requires approval by the President and the Board of Visitors of The College. A quorum shall consist of a simple majority of the Representatives with each department represented. An affirmative vote of a majority of the Representatives present and voting shall be necessary to adopt any motion, resolution or other action, except as specified otherwise in these Bylaws. All members of The Faculty may attend meetings of the Faculty Council without voice or vote.

As required for purposes of confidentiality, the Faculty Council may enter into closed session by a two-thirds (2/3) vote of the members present or by written request of the Dean/Director and in accordance with procedures established for meetings of the Board of Visitors of The College.

REVISION OF BOARD OF VISITORS
INVESTMENT POLICY AND APPOINTMENT OF INVESTMENT MANAGERS

Over the past several months the Investment Subcommittee of the Committee of Financial Affairs of the Board of Visitors of the College of William and Mary met with Wells Fargo Advisors, the Board's investment consultant, to consider 1) changes in the asset allocation targets applicable to the Board's long term endowment investments, 2) a move from passive to active investment of bond funds, and 3) investment of a portion of Board of Visitors funds in alternative investments through a "fund-of-funds" approach.

As a result of these discussions, the Investment Subcommittee recommends to the Committee of Financial Affairs the following actions:

1. Consistent with the accompanying schedule, revise the current asset allocation targets, reducing the percentage allocation to equities, increasing the percentage allocation to bonds, and increasing the percentage allocation to alternative investments
2. Move its U. S. bond investment from passive to active management, retaining the PIMCO Total Return Fund and the Pioneer Strategic Income Fund as complementary active managers.
3. Invest five percent of the investment portfolio in alternative investments through the Alternative Strategies Group, Inc. fund of funds vehicles.
