- “...create a noble and lasting tribute to the memory of the people who built and served the university.”

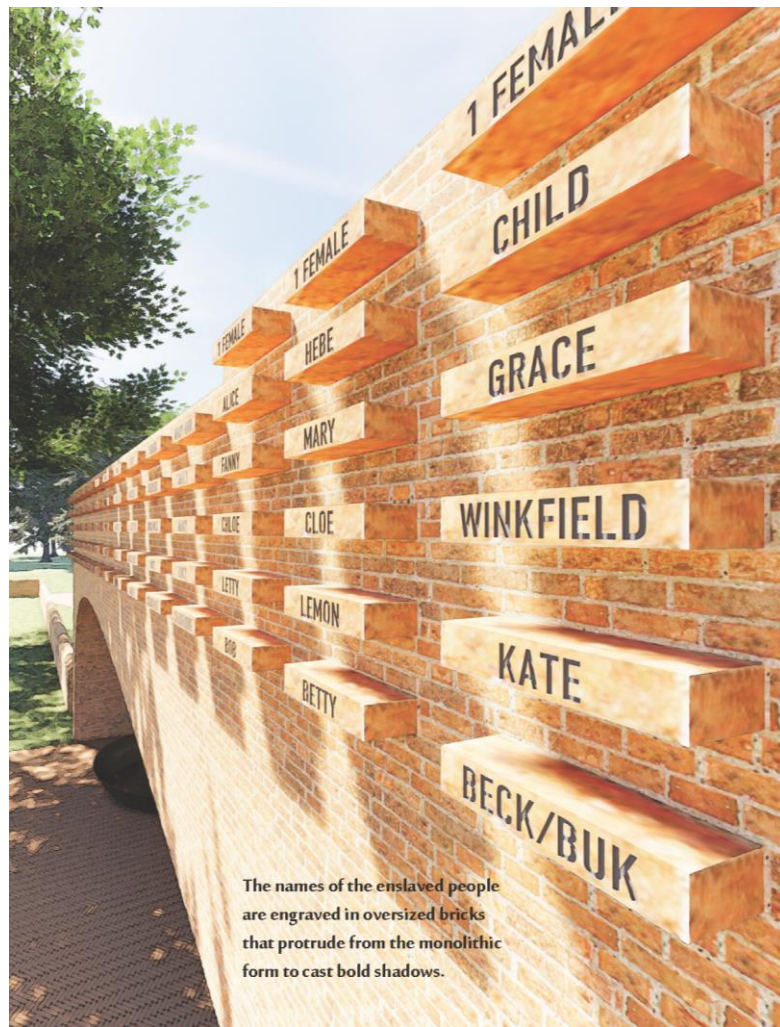

PROCESS

- President approves design concept and presents to Board of Visitors

The seating area provides an open, yet intimate outdoor classroom or meeting space for the campus community.

The names of the enslaved people are engraved in oversized bricks that protrude from the monolithic form to cast bold shadows.

The HEARTH's fluid, curving form starkly contrasts with the more traditional, orthogonal architectural lines of the adjacent Historic Campus. Standing in the HEARTH looking back on the quad provides a new lens through which to view and reflect on the story of this elite institution.
