JOIN THE W&M CALL TO SERVICE

BECOME A VIRTUAL LEARNING PARTNER

for a K-5 student in Williamsburg

SERVE LOCAL FAMILIES

WORK FOR EQUITY

USE YOUR SKILLS

Help fill the gap for elementary-aged students displaced from in-person learning due to the pandemic. Build a one-to-one relationship and help a K-5 student overcome barriers they're facing during virtual learning.

Through a partnership between W&M and Williamsburg-James City County Schools, Virtual Learning Partners receive training, then volunteer one hour per week providing individualized support to a local elementary student, which may include homework assistance, academic tutoring and/or social-emotional support.

Open to all W&M undergraduate students. We are working to provide an opportunity for participants to receive an experiential learning designation on their fall transcripts and to participate in a credit-bearing extension course in January.

W&M&YOU

- Designed during COVID to get real student input on what is important to them and respond accordingly.
- Gives students a direct voice and has influenced planning for the student experience in and out of the classroom, remote and in person.
