\*Reporting a sexual assault to W&M Police **does not** mean that you have to pursue a criminal case.\*

If possible, preserve any evidence. If you have been assaulted recently, try not to bathe, shower, brush your teeth, drink or use the restroom prior to evidence being collected. Physical evidence (PERK) can be recovered by a medical professional at no cost to you.

**Remember that the assault was not your fault.  
You are not alone. There are people who can help.**
